

Being and Becoming

Becoming of consciousness, can alter the normal being of existence. You can't change the past, or the present that becomes the past, you can only change the future. Living, becoming, future, is where we focus on to create and change. "Living" is about becoming a truer, realer, higher self, comparatively and contrarily to the falser, unrealer, lower self. Evolution, change, betterment, etc., is purpose, meaning and becoming, towards the goal of being better.
