Speak the frequency of Truth. A frequency can be viewed as a vibration. Vibration can create friction, tension, pressure, conflict, in the interference with another vibration. The frequency of Truth interferes with the frequency of falsity, Good vs. evil, etc. Some people are more aligned with Truth, and some are more aligned with falsity. The only way for falsity, immorality, evil, to be changed, is for the force of Truth, Right, Good, etc. to be spoken into creation.

Hearing falsity, lies, illusions, spoken of as "Truth" by someone, can create tension as well. Truth does not tolerate falsity. Those aligned with Truth are not rejecting Truth, they are rejecting falsity with a shield, and then speak back Truth to slice falsity down as a sword.

Less alignment, harmony with Truth, more with falsity

Speaking Truth or falsity affects others in reality. Speak Truth into Creation to influence and manifest Good. Awareness of interference with Truth and Morality, of disharmony with Truth and Morality, is felt as cognitive dissonance and emotions, anger, guilt, tension, pressure, conflict, friction. Discomfort has a resolution, either in accepting Truth, or rejecting Truth from apathy, ignorance and fear.

More alignment, harmony
with Truth, less with falsity

No Interference in False Frequencies
creates no Tension, and no discomfort
that requires no Change. Falsity persists.
Evil persists. Chaos continues to develop.
The Dark force of Evil grows as it manifests
in reality through our actions.

Don't speak Truth
into creation, don't
affect people's
frequency, nothing
will change

Less alignment, harmony
with Truth, more with falsity
