What makes things move? *Force*.  
Actions and deeds are a *force* that  
fuels change/movement in time.

Different actions in the past (time)  
created a different time in the now  
(change). A time stream is different  
moments with different actions to  
affect change. Cause and Effect. Water  
goes downward to the lower ground.  
Actions/deeds of water element lead  
to the results and consequences of  
earth element.

TIME = ACTIVE, MOVEMENT, CHANGE.  
ACTION CREATES CHANGE THROUGH  
MOVEMENT IN TIME.

Reality is a result of the consequences to our actions and deeds that are generated by our thoughts and desires.

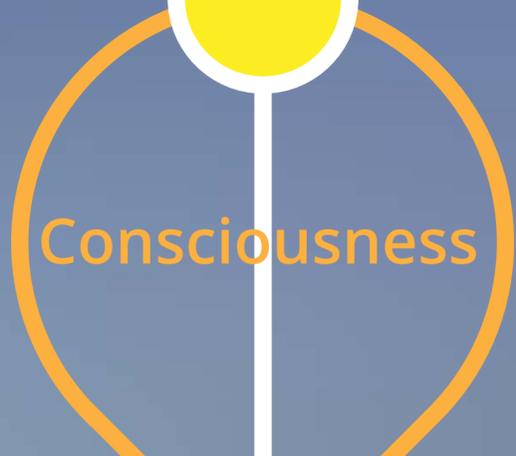

“Wheel of Time/Dharma” cycle we create from past actions in reality, turned by desires, thoughts, deeds, results. Cause and Effect system, like Trinity of Consciousness.

Nature/essence/spirit of deeds is morality, which regulates the nature & quality of life and reality according to principles of maat, truth, justice, order, etc. Truth or consequences. Be right or go wrong. Ka-maa, kamma, karma.

Scales of Maat, in Duat Underworld. Deeds and consequences/rewards from desire/care/heart weighed against Truth. Determine afterlife, the world we remake by changing.

Truth/Justice, Right-Hand of God, Righteousness,

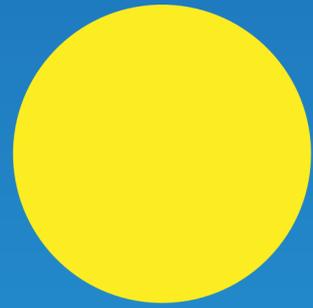

The light of the sun and stars reaches the surface of Earth to generate heat and support life. "Life" in the occult esoteric symbolism, is eternal life, immortality, afterlife, paradise, heaven. The light of maat and truth generates the heat, friction and interference of justice to injustice and falsity. Light of Truth & Heat of Justice. Fire, Heat, Light, used to cleanse and burn away impurities, to sanitize. Below the surface of earth there is no light, no heat, no air, no life; it is of death, darkness, cold and blind.

*Sun, light, truth, is the path to life through the heat of justice. It is the Path of the 7 "Spirits" of Good/"God", the 7 Virtues & Values; the Path of the Two Witnesses, of Truth & Justice, the 1st and 7th, the first and the last. The path of light, sun & truth to create life is the way of living in maat. This is the central wisdom to life that is part of any worthwhile mystery tradition. It is about life, here and now, that we can create into a heaven, not a hell. There is no greater concern than this life, not other imagined "soul" lives somewhere else.*

Not knowing Good & Evil is living in both (dual, checkerboard), due to that ignorance of the difference between good and evil, right and wrong, a chaotic existence, isfet, with the negative tempestuous waters.

Life Goal: Reduce negative existence to create positive higher existence. Seek truth through knowledge of falsity/negative. This is the real balance of ourselves with maat, raising from the earth element towards the air on one axis, and from desires to deeds, care to actions, on the other axis. What hand do you act from?

Ka-Spirit is character/nature/essence  
accumulated from deeds/actions  
of lifetime. Spirit = moral essence.  
Ka of life/good. Ka of death/evil.  
Dead mind and heart in earth low consciousness.  
Living are mind/heart in high air consciousness.  
Karma/kamma, ka-maat, the maat of our ka-spirit.

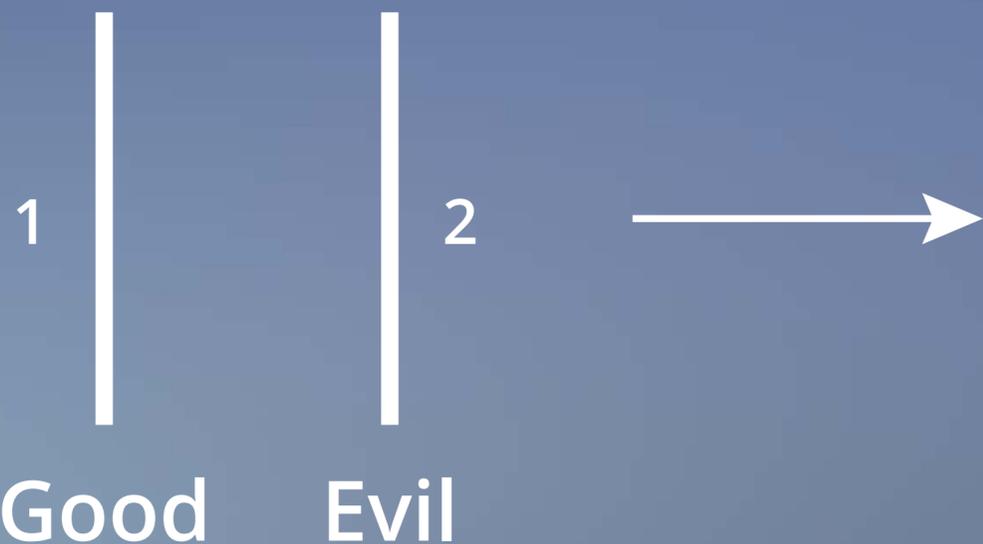

Future rewards/consequences based on  
past actions i.e. Truth or Consequence.  
This is True Balance, a scale, comparison,  
to bring us into balance with Natural Law Truth & Justice.  
1 drop of evil weighs down our existence, with dire results.  
Goal = Freedom from Evil & negative results we create,  
not false balance accomodation with evil.

The world of man needs to create in “spirituality”, morality, to reach up to the world of truth, maat, the conceptual underlying foundational order of creation. We reach it with the power of Ka, activating the Ka in heka, to reach up to maat and higher consciousness. The pillars and columns symbolize the building up from the earth to the air, sky and heavens to reach maat, truth, law, justice, order, etc. Heh, from heka, means eternity as well, and this is what we reach as well, the ‘diet’ eternity of afterlife, immortality, heaven and paradise of living in morality, in maat. Maat is the foundation, as the pillar becomes. Life, ankh, was about living in maat as good (nefer) divine being to be immortal as Osiris is.

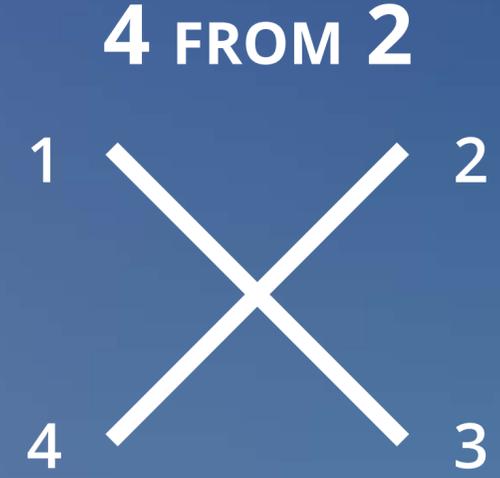

The 4 winds, the 4 corners, upholding the sky from the earth, Nut from Geb, is the air god Shu, symbol of light and the word, through the counterpart Hu. The power of Ka, and the word, the truth, is the way and path to the heavens and the sun, in addition to the power that keeps heaven from crashing into hell, the sky from crashing into earth.
