WHAT DO YOU WANT?

FREEDOM OR SLAVERY?

**Do you want to be enslaved?
What is slavery?**

**Do you want to be free?
What is freedom?**

Can one have both? Or are they mutually exclusive?

BASIC DEFINITIONS

BASIC DICTIONARY/ETYMOLOGY DEFINITION

FREEDOM

“power of self-determination, state of free will; emancipation from slavery”

Free: *“not in bondage, acting of one's own will”*

Will: *“to determine by act of choice”*

SLAVERY

“state of servitude, condition of a slave”

Slave: *“person who is the chattel or property of another”*

Property: *“things subject to ownership”*

Own: *“to possess, have; rule, be in command of, have authority over;”*

Freedom is all about whether there is enslavement from false claims of ownership.

SLAVERY

Defining slavery can be summarized as follows:

Slavery is a (false) claim of ownership on other's rightful property (theft), in whole or in part.

A false claim of ownership can be a *single act*, as a *one-time occurrence* applied to one or many others. E.g. a mugger stealing from you; a business defrauding all their clients. That's a **temporary condition** or *state* of enslavement that **subsides**. The more severe form of slavery is when the *condition* or *state* is *persisted* and becomes a **permanent** facet of life for one or many (**living as a slave**). E.g. chattel slavery; being stolen from perpetually (theft of property that continues over and over). Whole societies can be enslaved, which can be defined as follows:

A society of slavery is when there is an accepted, persistent and widespread claim of ownership on other's rightful property, in whole or in part.

RIGHT TO OWNERSHIP, OR SLAVE

Either you have the right to **own property**, or you are a *slave*. Either you have the right to **keep your property**, or you are a *slave*. **All forms of government are feudalism/slavery**. Government, taxation, licensure, mandates, prohibition, etc. are *euphemisms* to make slavery sound more *acceptable*. We aren't told it's slavery, so we don't see it as slavery.

We are **free and sovereign** by the very **nature of being born**. No rulers or masters exist above us in Nature. It's a delusion to believe otherwise.

SLAVERY AND FREEDOM

VIOLATION OF AN INDIVIDUAL

TEMPORARY CONDITION OF ENSLAVEMENT

- One occurrence from the violator(s)
- Violation is not repeated, either because defense is used instantly to stop the violator, justice is enacted afterwards to prevent that the violator from repeating, or if tolerated once for some reason (like not being prepared to respond; giving a 2nd chance) the 2nd occurrence is the final one for the violator
- False claim of ownership for a brief period of time (instance of enslavement)
 - e.g. mugging, assault, rape, coercion, etc.
- Individual has the capability to stop the violator(s) from creating repeat violations

PERMANENT CONDITION OF ENSLAVEMENT

- Repeated occurrences from the violator(s)
- Violation persists as a way of life because the violator is allowed to continue due to fear/ unwillingness to act to stop the violator, or not enough force of numbers to actually stop the violators
- False claim of ownership as a way of life (persistent enslavement)
 - e.g. daily/weekly mugging, assault, etc.
- Individual is either incapable (numbers, overpowered, etc.) or unwilling (ability present but not enacted by will) to stop the violator(s) from creating repeat violations

SLAVERY AND FREEDOM

VIOLATION OF A COLLECTION OF INDIVIDUALS (COLLECTIVE)

TEMPORARY CONDITION OF ENSLAVEMENT

- Same as 'Violation of Individual'...
- Individuals are capable and willing to stop the violator(s) from creating repeat violations

PERMANENT CONDITION OF ENSLAVEMENT

- Same as 'Violation of Individual'...
- Individuals are **unwilling** (ability present but not enacted by will) to stop the violator(s) from creating repeat violations
- ***Numbers of individuals are present*** as a collection of individuals in an area and ***capable of uniting***, but they ***aren't united*** as a ***force to stand together*** and stop the smaller collective of violators from repeat violations

Will is what prevents the collection of individuals being violated from *ending* their condition of *aggregate societal enslavement* and *regaining* the condition of **True Freedom**. They have the capacity that individuals alone lack: *numbers* and the subsequent moral *unity* of that larger quantity of individuals to apply *greater force* against the violence.

SLAVERY AND FREEDOM

SELF-DEFENSE

Any *temporary* false claim of ownership (enslavement) is *not permanent*, hence True Freedom remains. Persistent false claims of ownership (persistent slavery) destroys the condition of True Freedom. Even though you still have some “freedoms”, you don’t have them all to have True Freedom.

To ensure only temporary violations/slavery occurs, *employing self-defense is a requirement*. Consequences need to be applied when possible to not allow the violator(s) to repeat the violations. Consequences can also be a message, warning and deterrent for those thinking of being violators in the future who may try to violate others who *stand up* for themselves.

This is why people in an area must unite with morality individually (to not initiate harm), and *unite together* morally to *stand against* those who still choose to violate. Otherwise, the message is that the people in an area are **aggregately cowards** and will *let themselves be dominated and enslaved*.

WHAT IS FREEDOM?

True Freedom is the *absence of persistent slavery in the aggregate*; the respect of everyone's **Rights** and their **defense** when not respected.

You will always have some *degrees* of "freedoms" with societal aggregate slavery present, but you won't have Freedom (True Freedom). Even without persistent slavery, you can have all "freedoms" and have freedom, but if people in your area don't *unite together morally* against the violation of Natural Rights of *any individual*, then any individual could be the next to be temporarily or persistently enslaved. Would there really be True Freedom in your area if you were persistently enslaved?

If you're *not willing* to **stand together in morality** with others in the **force of numbers** to *oppose* the immorality and injustice (an unremedied violation of Natural Rights), then how can you expect others to stand together with you when injustice happens to you? True Freedom is having individual Natural Rights/Law (NAP, SDP) **respected and defended** aggregately (ideally by all for all).

SLAVERY AND FREEDOM

POWER OF THE NEGATIVE

Is an area/society in the condition of True Freedom if an individual is persistently enslaved? E.g. every day an individual has a theft of some form of their property (in whole or in part) applied to them by a violator or group of violators and the individual doesn't have the capability to stop it from repeating.

A collection is made of individuals; the collective/aggregate comes after the individual and their Natural Rights. True Freedom is about the aggregate of all individuals, and the same principle of the Truth Table applies where the negative holds the power. One person in an area with persistent claims of ownership upon their property (enslavement), means that area (society, aggregate, collective) doesn't have True Freedom. **So long as one is persistently enslaved (suffering), we are all (suffering) denied True Freedom.** Freedom for all or Freedom for none. **Moral unity together** is required to enact justice, stop violators and create the state or condition of True Freedom. Unite for cooperative defense and justice, or be alone to deal with violators. Unite via morality for optimal interactions.

FREEDOM VS. SLAVERY

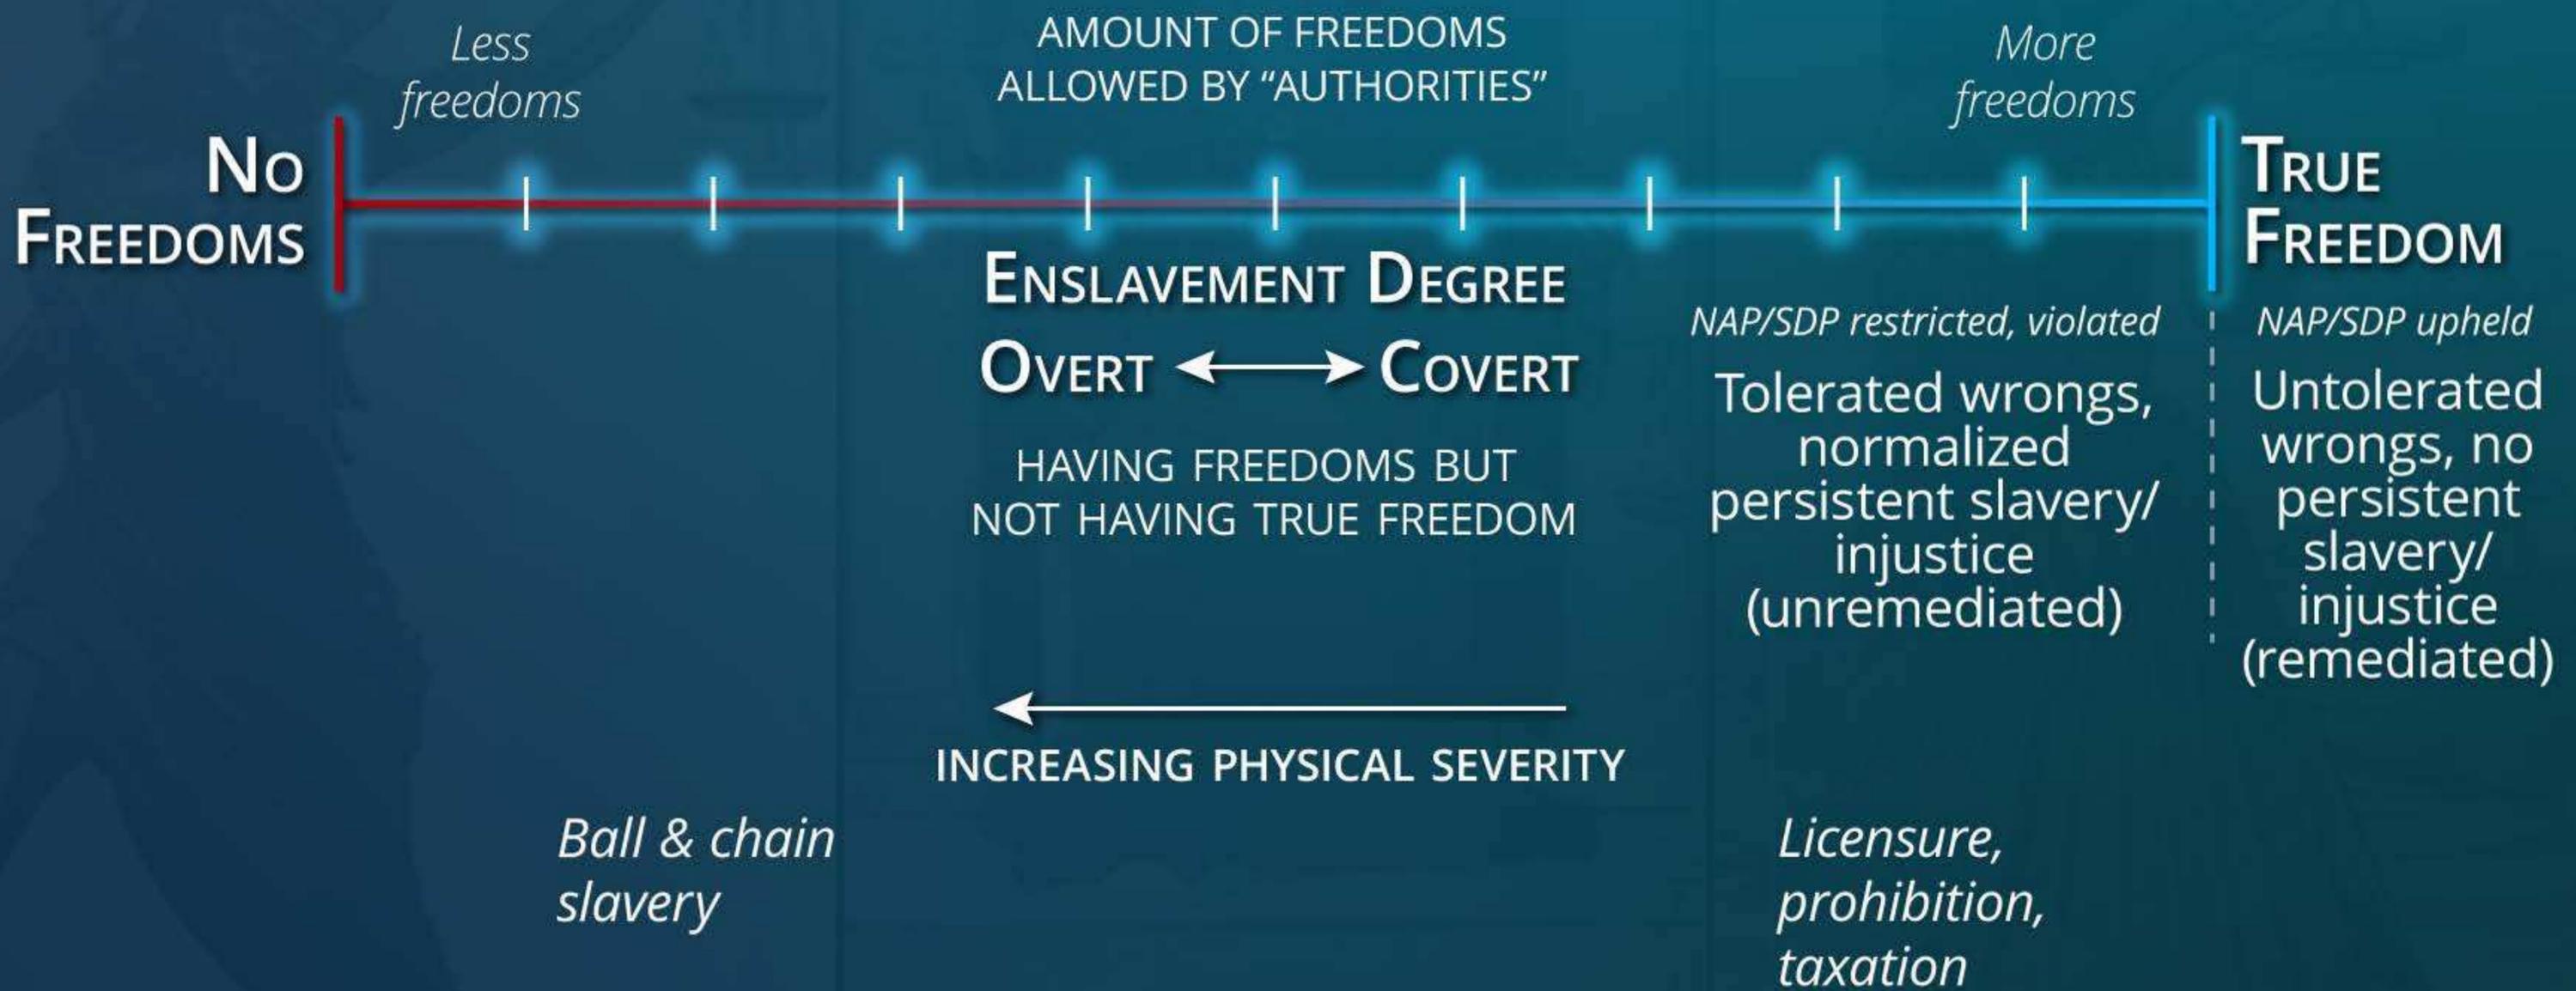

We have the freedom to live within our Rights. This necessitates not violating the Rights of others; of **not initiating harm** to others. If you're being prevented from using your *will* to act in a way which *doesn't initiate harm*, are you're Rights being upheld or violated? If you're not initiating harm, that's a **claim of having the right to decide what is done with your actions, your body**, not you owning and deciding what is done with your property — for being a peaceful human being. That's a *claim of ownership*; persisted it becomes the condition of enslavement.

As long as the current condition contains some persistent enslavement, we aren't in the condition of True Freedom. People in society have the illusion of being in a state of True Freedom, of being "free", while they accept enslavement.

True Freedom requires voluntary interactions based in respecting the rights of all (especially not initiating harm). When Freedom is infringed, justice through rectification re-instates the starting level of True Freedom.

FREEDOM OR "FREEDOMS"?

MORE OR LESS "FREEDOMS" VS. FREEDOM (TRUE FREEDOM) IN A SOCIETY

JUSTICE

LAWFUL LOVING CO-EXISTENCE

The most loving thing to do when there is violence is to *block* and *stop* the violence; to *not allow* it to continue unchecked. Those who reject the reasoning/logic to abide by the NAP are creating a non-loving state of violence that they impose on others. This must be *rejected* for True Freedom to exist.

The Trivium Method/Natural Law process of how we learn from and create our shared experience/condition in reality is required knowledge to understand the **causal importance of our behavior**. To not accept persistent violations means that any who repeatedly reject peaceful Loving/Lawful co-existence (and don't change their ways) have to be dealt with by the individuals in that area/society.

The Loving/Lawful vs. non-Loving/Lawful (fearful/violating) state of human co-existence correlates with the internal states of consciousness of Love vs. Fear. The external state (behavior, condition, effect) is a reflection of the internal state (thought, emotion, cause).

SOVEREIGNTY

Are you sovereign?

Yes

You acknowledge that you're free, not a subject to others, not a slave.

No

You're a slave? Who owns you? Is someone responsible for what you think, feel and do?

We are born free and are inherently free sovereigns. All claims of slavery are illegitimate (morally wrong). The self/consciousness owns the creative faculties of the body (self-ownership) and moves it by will to create externally. We can be informed with Natural Rights and ensure their respect by all for all.

SOVEREIGN

SUPER- "ABOVE" + REGNUM "CONTROL" (FREE BEING)

FALSE SOVEREIGN

- monarchs, governments, highest in rank or power, rulers over others, placed above the rest
- masters over slaves
- superiority to control others
- deception of being responsible for others, of taking care of others, of being a guardian
- representative politics; allow others to represent you; abdicate your responsibility over your own sovereignty and self-ownership; try to make yourself a slave

TRUE SOVEREIGN

- ruler, master, superior of yourself; self-mastery, no other is master of you
- responsible for yourself; don't give away your responsibility to others
- represent yourself
- know what rights are for sovereign individuals
- highest responsibility to morality
- not a master of others or slave to others
- right to be free from the initiation of violence (NAP)
- right to defend yourself (SDP) against the initiation of harm (NAP violated)

INHERENT (NATURAL) SOVEREIGNTY AND RIGHTS

The history of civilization (so-called "civilized society") is a cycle of denying sovereignty and rights to all, except for the few or select/elect (monarchy, minarchy, democracy, etc.)

Everyone is born sovereign. Convincing people they don't have sovereignty is done through mind control (belief in authority), or strength (might makes right) to violate that sovereignty for those who don't buy into the con of authority and the belief in an obligation to be obedient to authority.

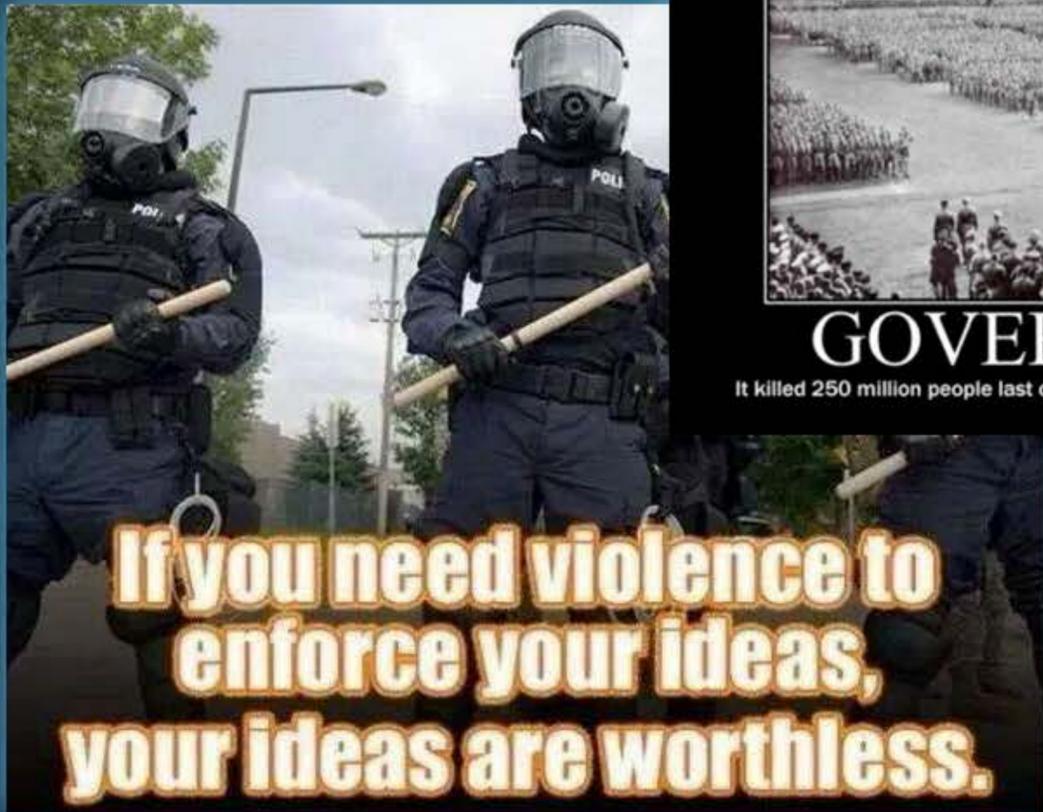

You only **keep** living in conditions that respect your natural sovereignty and your Natural Rights if you're **willing to unite, fight and die** to stop others from violating them. Otherwise, you get enslaved. You always have sovereignty and Natural Rights by birth, despite them being violated or denied. E.g. 1-vs-1 violation is manageable, but 1-vs-many of being born into a society of order followers defending an immoral way of life *requires numbers* to counter.

INHERENT (NATURAL) SOVEREIGNTY AND RIGHTS

No one can *renounce* their inherent Rights. They can't be *removed* or *denied* by others or yourself. No one can accept being enslaved as a legitimate way of being/existing. Self-ownership can't be negated. The natural state of being under the default state of existence is without the master-slave relationship that others may create and impose. Being harmed for the *debt* of initiating harm is not a violation of Rights; one *initiated* harm and the other *responded* to the violator.

One or some can *claim* to be rulers/masters and others slaves, but it's a *false claim*. It's not an eternal truth, only a *belief* of a diseased/sick mind (psychopath). A condition/state might be of slavery, of master-slave relationships truly existing at the time, but it's not a true Way to live/be/exist. **Accepting** a claim of slavery is a **wrong**: you can't voluntarily accept becoming a slave as a "right". It's not a right. Your self-ownership property right can't be exchanged. None can be owned except by themselves (self-ownership). We may be letting ourselves be enslaved, but it's not a right to do.

HUMANITY'S ONE TRUE DIVIDE

**NOT LIVING WITHIN NATURAL RIGHTS
NOR LETTING PEOPLE LIVE THEIR RIGHTS.**

Do you believe people are property and slaves; that there is such a thing as legitimate authority over the lives of others to control what they do?

VS.

**LIVE WITHIN NATURAL RIGHTS AND
RESPECT THE RIGHTS OF OTHERS.**

Do you believe that people are not property, that they are free by their very nature and existence?

TO BE OR NOT BE A...

BELIEVER IN THE LEGITIMACY OF AUTHORITY/SLAVERY

VALUE YOUR LIFE

Is your life of *value* to you? Do you want to grow and improve?

You need to be free to do that (to have your Rights respected) for your life to continue unaccosted. You have *infinite value* and *potential*. How could you allow someone to violate your Rights which jeopardizes the value of your life? Isn't violence an act that *devalues* your life relative to before that act occurred? Something is *stolen*.

If you think someone can initiate violence against you, or that you shouldn't defend yourself, then you can't claim to have self-respect or self-love because you're fine with that violence. Violence will continue to be done to us until we gain the **moral numbers to change that condition**. To reach those numbers, **moral education** is what we can do with *self-respect* and *self-love* to **end evil**.

WHAT'S YOUR CHOICE?

A WORLD OF FREEDOM, OR A WORLD WITH SLAVERY?

Do you want a world where it's **normalized** to have violence done to you or others, with most people **supporting** the violence and those that create it?

Do you recognize that we are **currently enslaved** and not free? If not, here are some realities to clear that up:

- theft of your free will to choose what to do with your earnings (taxation)
- theft of your free will to do things that don't initiate harm to others (licensure)
- theft of your free will to choose what does or doesn't go into your body (prohibition, mandates)

There are *requirements* (which are currently not being met) to create and get the condition of True Freedom that doesn't exist *yet*. Do you have the *self-love* to help create True Freedom and be free yourself? Or are you **fine being a slave**, and prefer to stay in *self-loathing*?

What are the requirements to actually get True Freedom?

Oppose the opposite of Freedom (slavery)
Oppose master-slave relationships

Acquire knowledge of objective difference
between right vs. wrong (morality)
DEVELOPED CONSCIENCE

Don't steal (7 Thefts), Natural Moral Law
Not initiating harm (wrong, immorality)
EXERCISE CONSCIENCE (1/2 - NAP)
Initiating harm not tolerated (SDP)
EXERCISE CONSCIENCE (2/2 - SDP)

Teach morality

Get aggregate moral society
No more master-slave relationships tolerated
TRUE FREEDOM (TRUE ANARCHY)

ANARCHY

AN- "WITHOUT" + ARKHON "RULER"

Ruler: *"one who rules or governs", especially in reference to superior or sovereign authority (over others)*

Superior: *"higher in position"*

Superior sovereign authority over others means others are not equal to the ruler. Others obey as inferiors, subjects that are subject to the ruler's will; subjugated.

Subjugate: *from Latin subiugare "to subjugate, subdue," literally "bring under the yoke"*

Subdue: *"to conquer and reduce to subjection," from sub "under, below" + ducere "to lead"*

Subjection: *"obedience, submission; servitude, bondage; lordship, control"*

Rulers are above their subjects (obedient) who are brought under them; conquered. The will of the individual subjects is secondary, usurped by the will of the rulers. The rulers are obeyed, or else violence ensues. The rulers are masters over the others who are slaves.

PRESERVING FREEDOM THROUGH DEFENSE

Freedom is a property of each of us. We **don't negotiate** for it (pleading, begging, petitioning). We have to be willing to do what is *necessary* to **keep** our property Rights from being infringed, to **keep them secured**. That's the **responsibility** of property ownership. Otherwise, in failing to *enact our will* in defense of our Rights and property, the result is that whoever wants to make false claims of ownership over other's property and claim the "right" to rule and enslave will get what they set their will to do.

People continually give validation to the enslavement system by being willing to negotiate with it. People beg for less enslavement, negotiating with mindsets like: "*I'll vote for your brand of lesser enslavement!*"; "*I'll vote for you if you enslave me less!*"

What a great way to progress through existence and life!

THE THREAT

What is biggest factor that inhibits morality and freedom; creating the most immorality?

Belief in the legitimacy of authority to control others living Rightfully (violence)

Government, Monarchy, etc.
Anyone who thinks they have a "right" to initiate harm

Using violence against people exercising their Rights

THE LOST AND CONFUSED

People say they want to live in peace; have good for themselves & others

Want dry clothes

Want government to exist; Support the belief in the legitimacy of authority to control others (violence)

Want and support others that wet the clothes

Advocating for violence; Means they want slavery to exist

Analogy similar, statistis ignore the causal relationship of the non-slavery requirement for a true condition of good, peace, freedom.

Antithetical to good; Support the opposite of claim; Don't actually want what they claim

Lost, confused, clueless; Don't know how to get what they want; Don't even know what they want; Don't really know what they are talking about

ASK YOURSELF...

Do you *want* True Freedom? How much do you want it? What are you *willing* to do to get it?

Do you only *care* about having freedoms for yourself personally and/or your family? Or do you want **Freedom for all**?

Do you only want Freedom (passively) in the context of accepting it if it happens? Or will you *actively work* to **fulfil the requirements** to make Freedom a reality?

Do you actually want to make Freedom a reality with your *actions*, of fulfilling the requirements? Do your *actions align* with what you *say you want*?

Do you reject the initiation of harm as a way of life? Are you still a supporter and believer of authority to control/rule others who don't initiate harm?

CARE FOR FREEDOM

PASSIVE

- small desire
- affirmed mentally or verbally
- just saying you want Freedom (lip service)
- not willing to do what is needed
- yearning for it but not acting to getting it
- welcome it if it happens

LOWER WILL

My freedoms, freedoms for me

- what I want to do
- focus on personal life
- my (degree of) "freedom", "survival", "life", "happiness", etc.
- let slavery be

ACTIVE

- deep desire
- affirmed through action
- not just saying it, but acting to make it happen
- doing what is required to actualize the goal
- actions work to create True Freedom
- make it happen

HIGHER WILL

True Freedom, Freedom for all

- I should, must morally do
- sacrifices in personal life
- work of moral education (Great Work)
- ending evil/slavery

True Freedom is Freedom for all, because Freedom only happens when it applies to all. We will never have True Freedom if individuals only care about "my freedoms".

FREEDOM FOR ALL

NO ONE LIVES ALONE SEPARATED FROM OTHERS

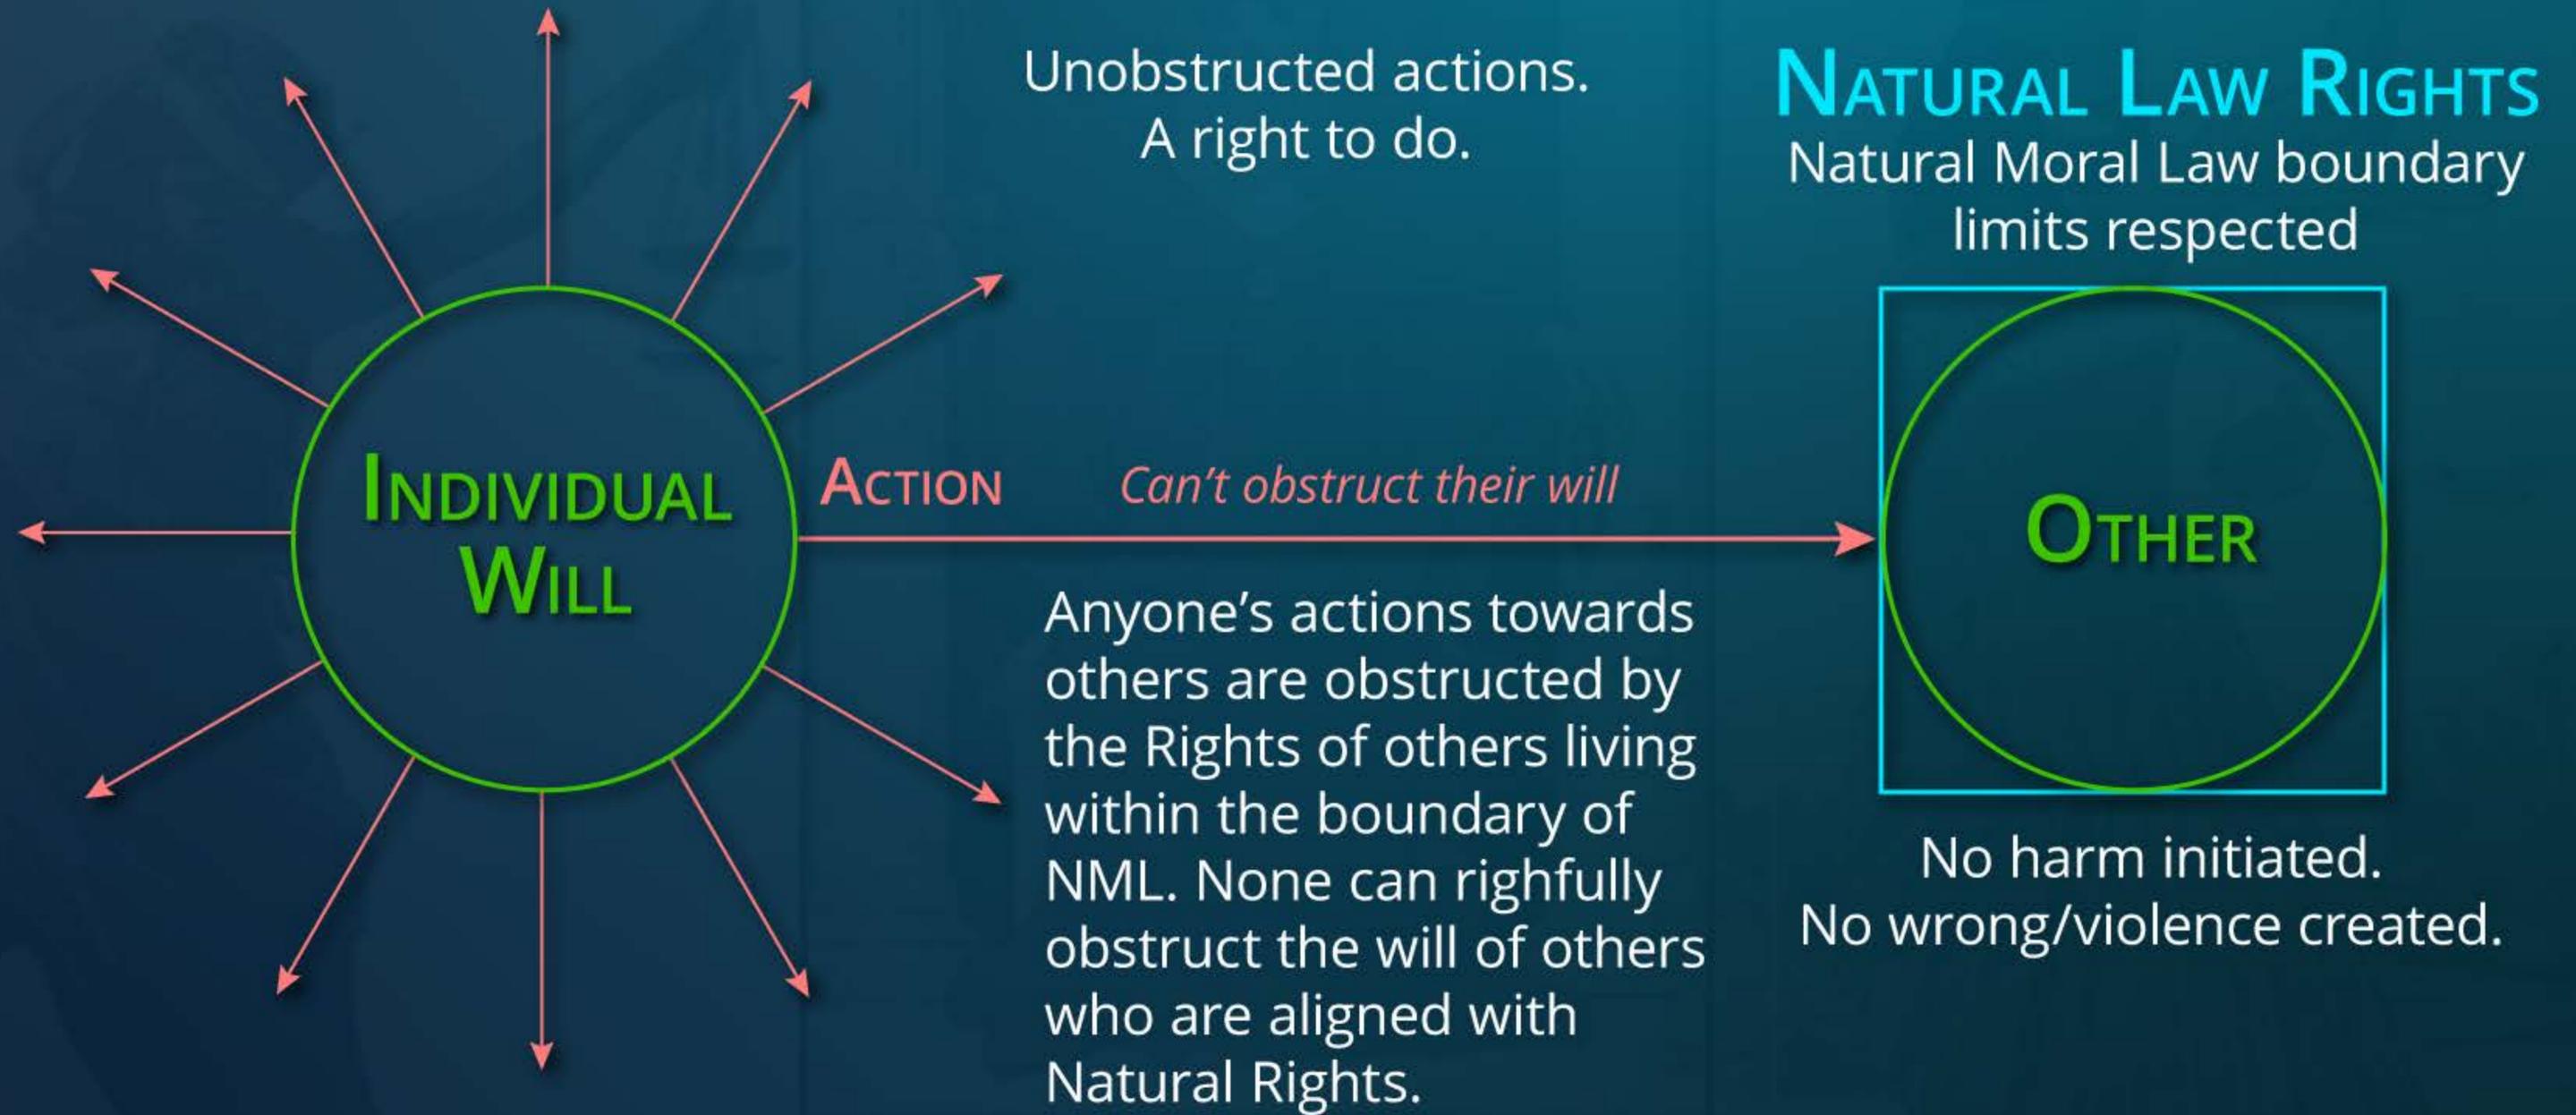

If you *want* Freedom for *yourself*, then you have to *want* Freedom for *everyone*. You're not going to just get Freedom for yourself, as if you live on an isolated island separate from others, where the actions of others don't touch or affect you. You getting Freedom is, unfortunately, **directly linked or chained to *other's behaviors*** in the society in which you live. **The ignorance of others keeps us enslaved. Their ignorance is our collective enslavement.**

We are *chained into an immoral condition of living* (slavery) if the majority of aggregate behaviors support, tolerate or create immorality. You trying to live morally isn't enough to to get Freedom, especially when you're coerced into feeding the immorality (e.g. taxes). **Society reflects the majority.**

"Rightful liberty is unobstructed action according to our will within limits drawn around us by the equal rights of others."

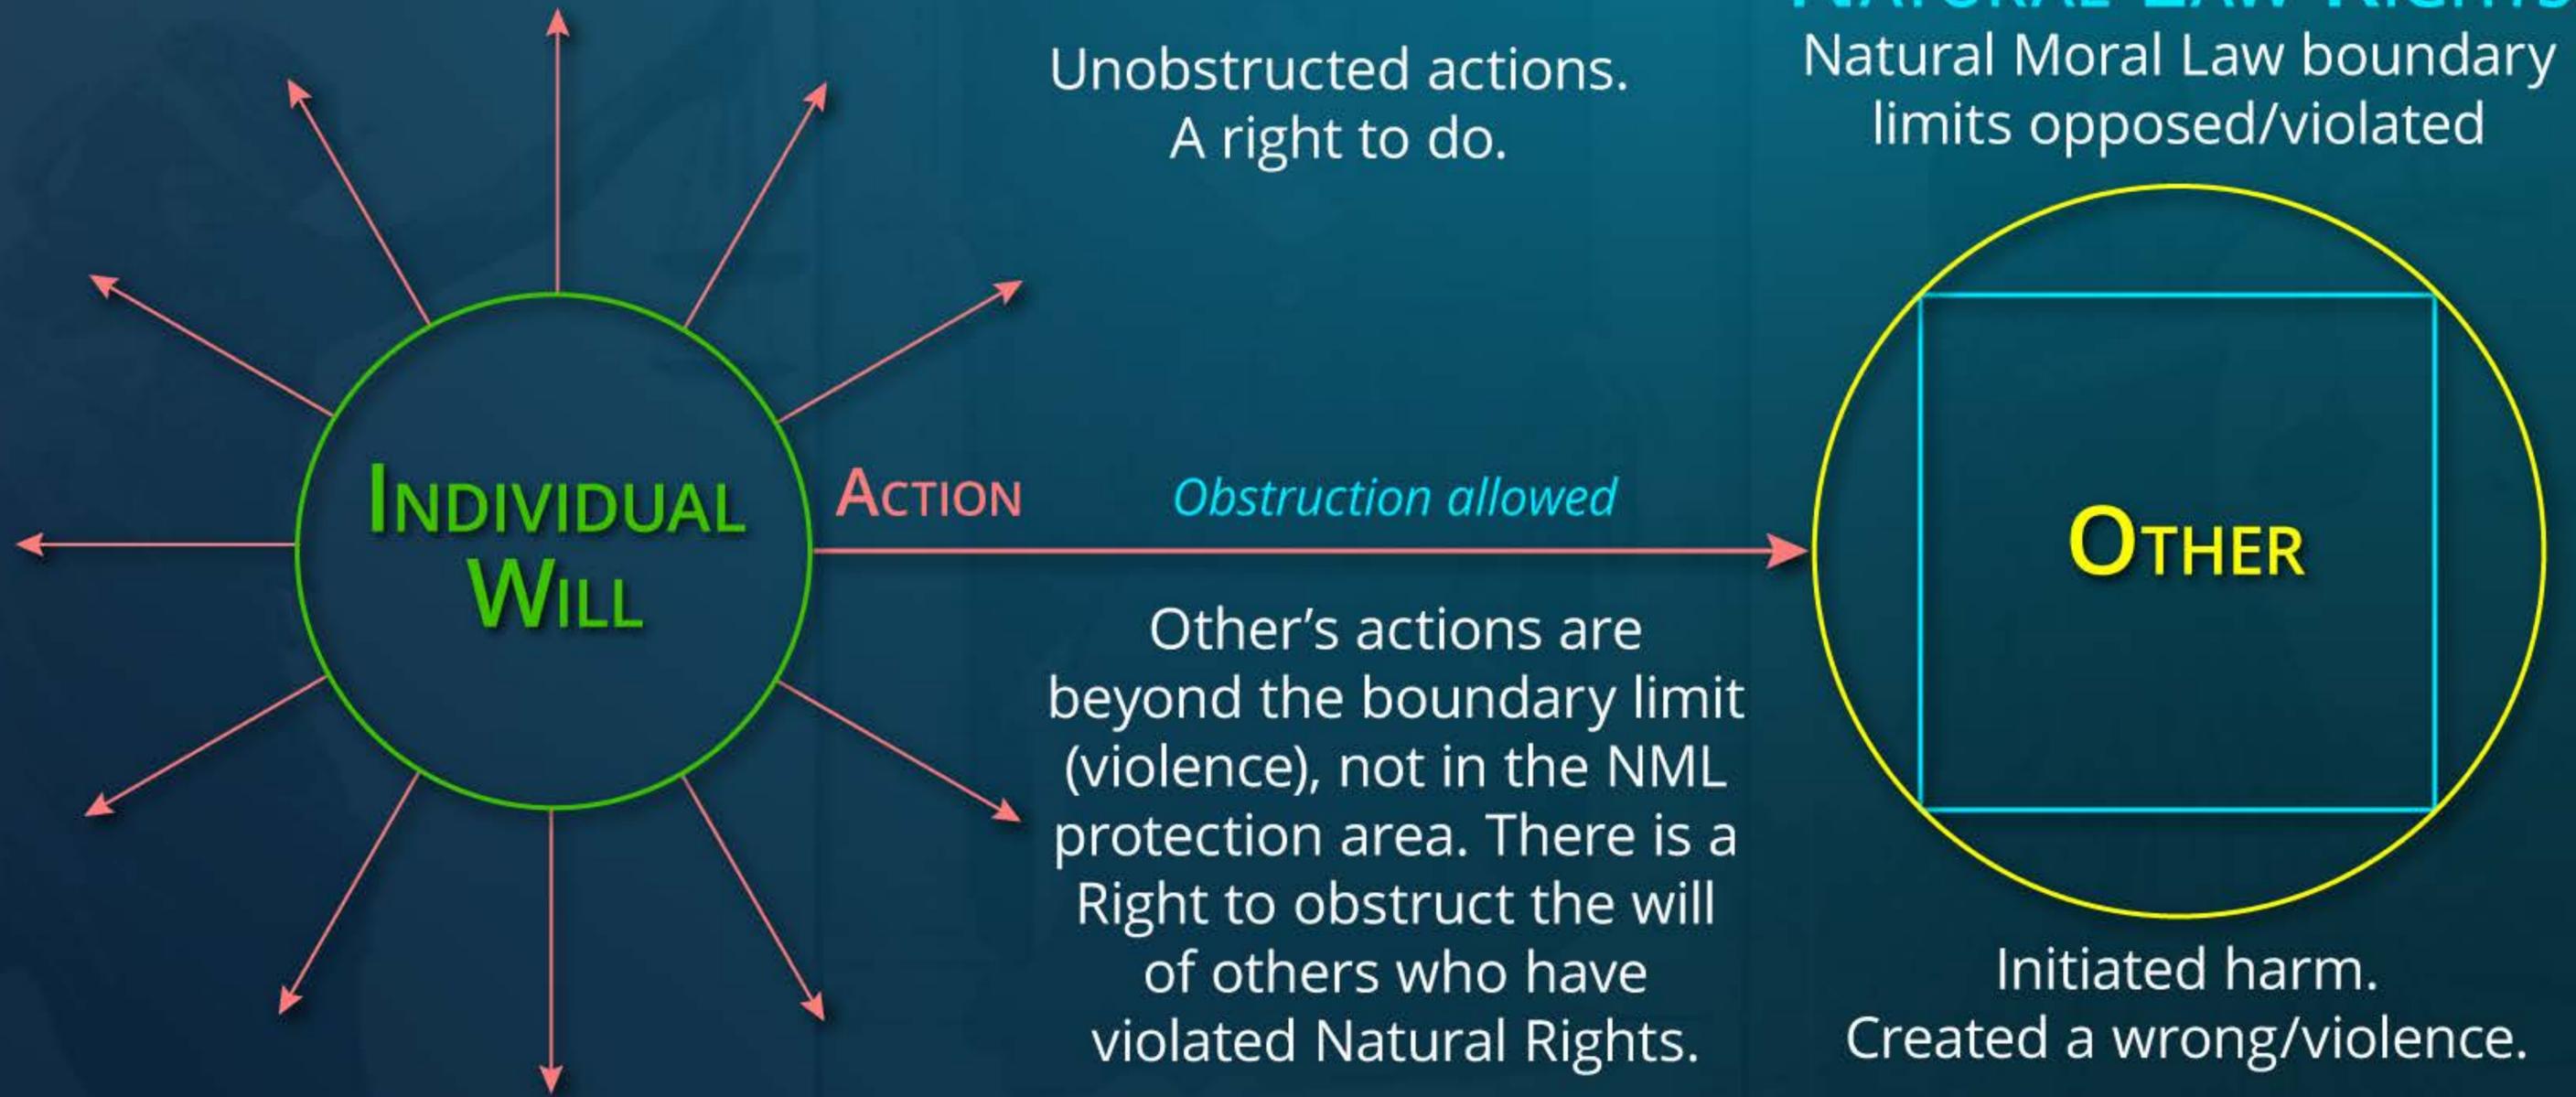

- Thomas Jefferson

RIGHTFUL LIBERTY = RIGHTFUL FREEDOM

"Rightful liberty is unobstructed action according to our will within limits drawn around us by the equal rights of others."

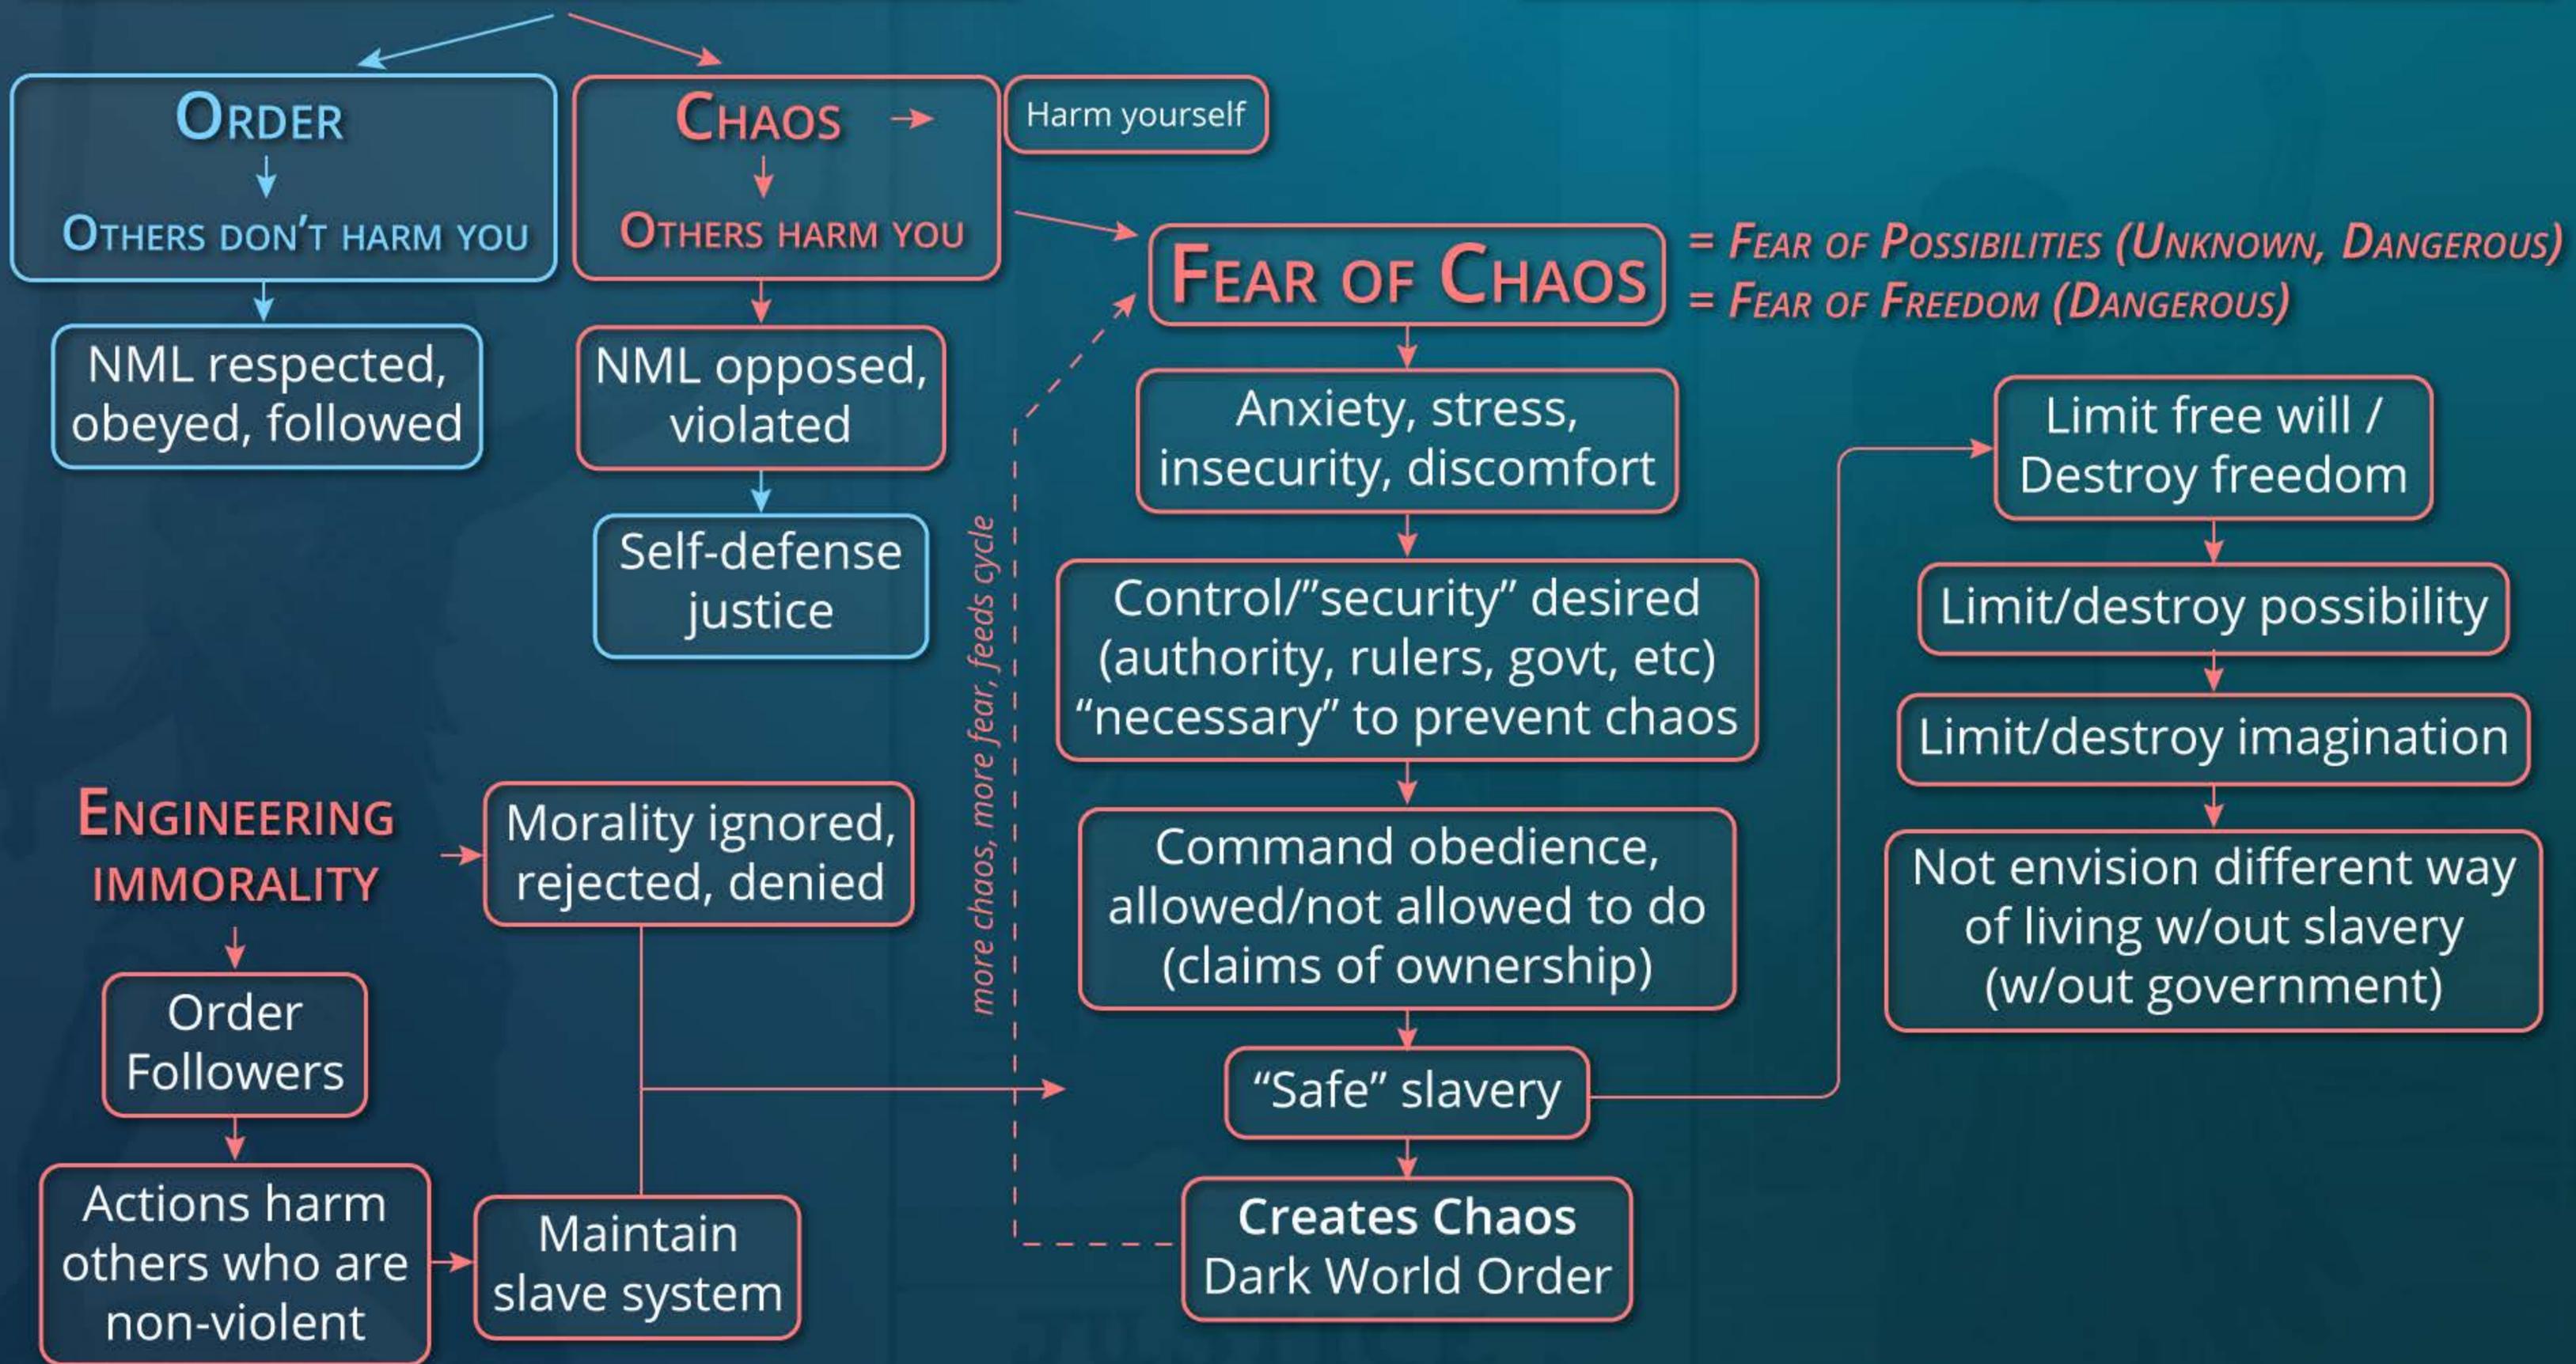

- Thomas Jefferson

TRUE FREEDOM = "INFINITE" POSSIBILITIES

vs.

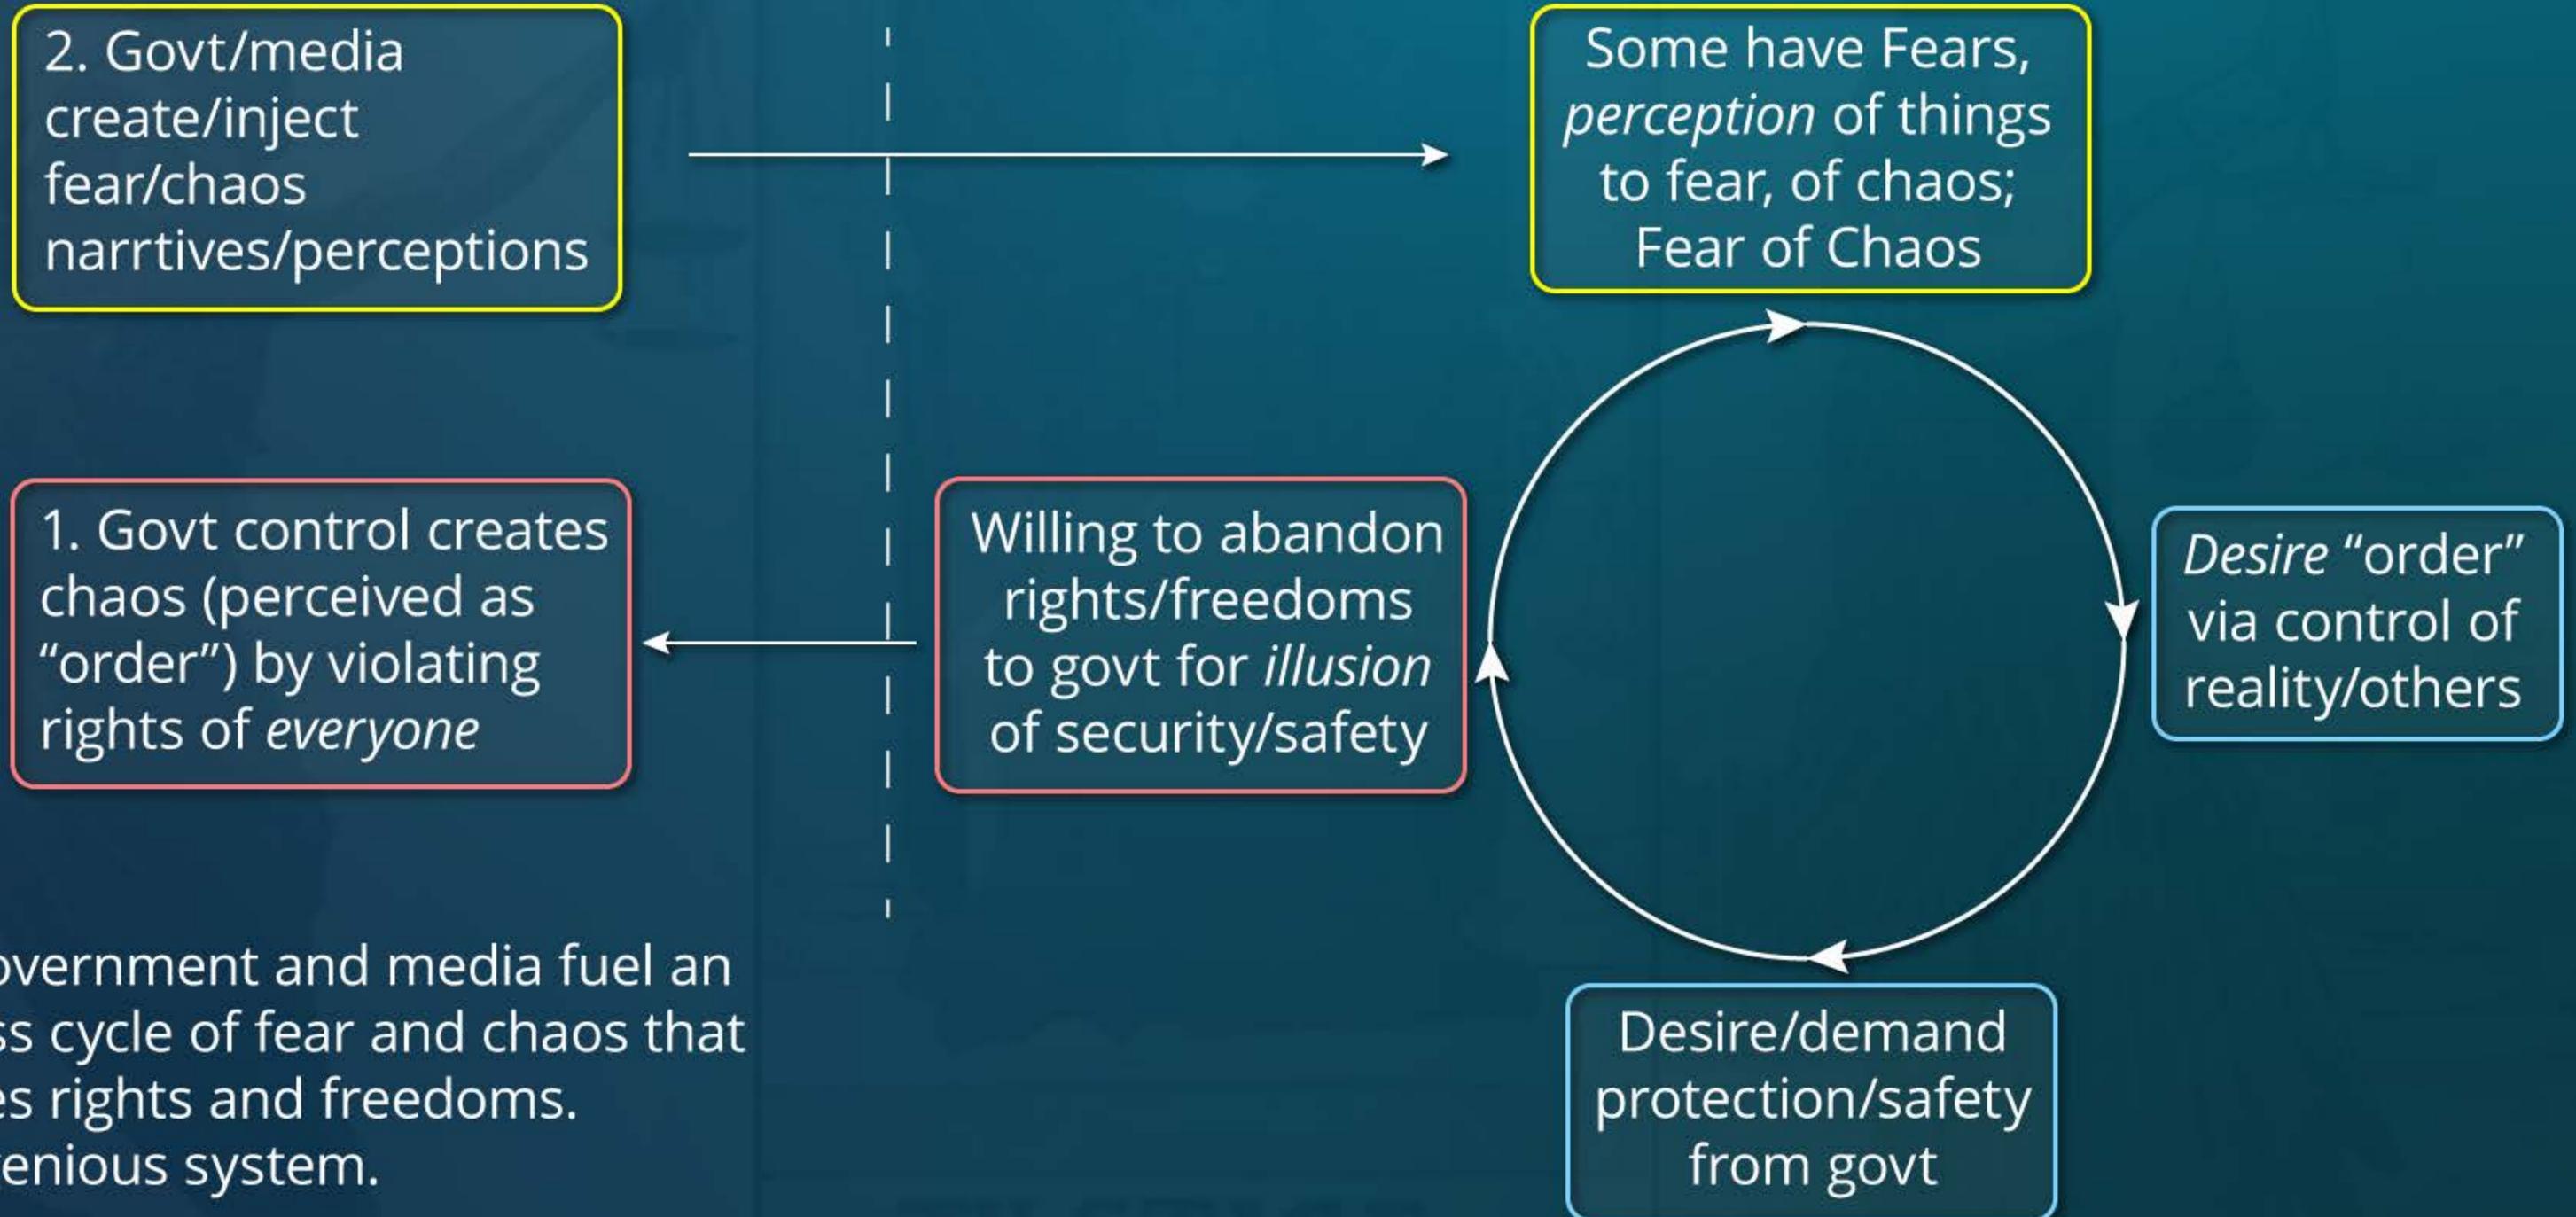

SLAVERY = CONTROL, LIMITED POSSIBILITIES

AUTHORITY'S FEAR OF CHAOS CYCLE

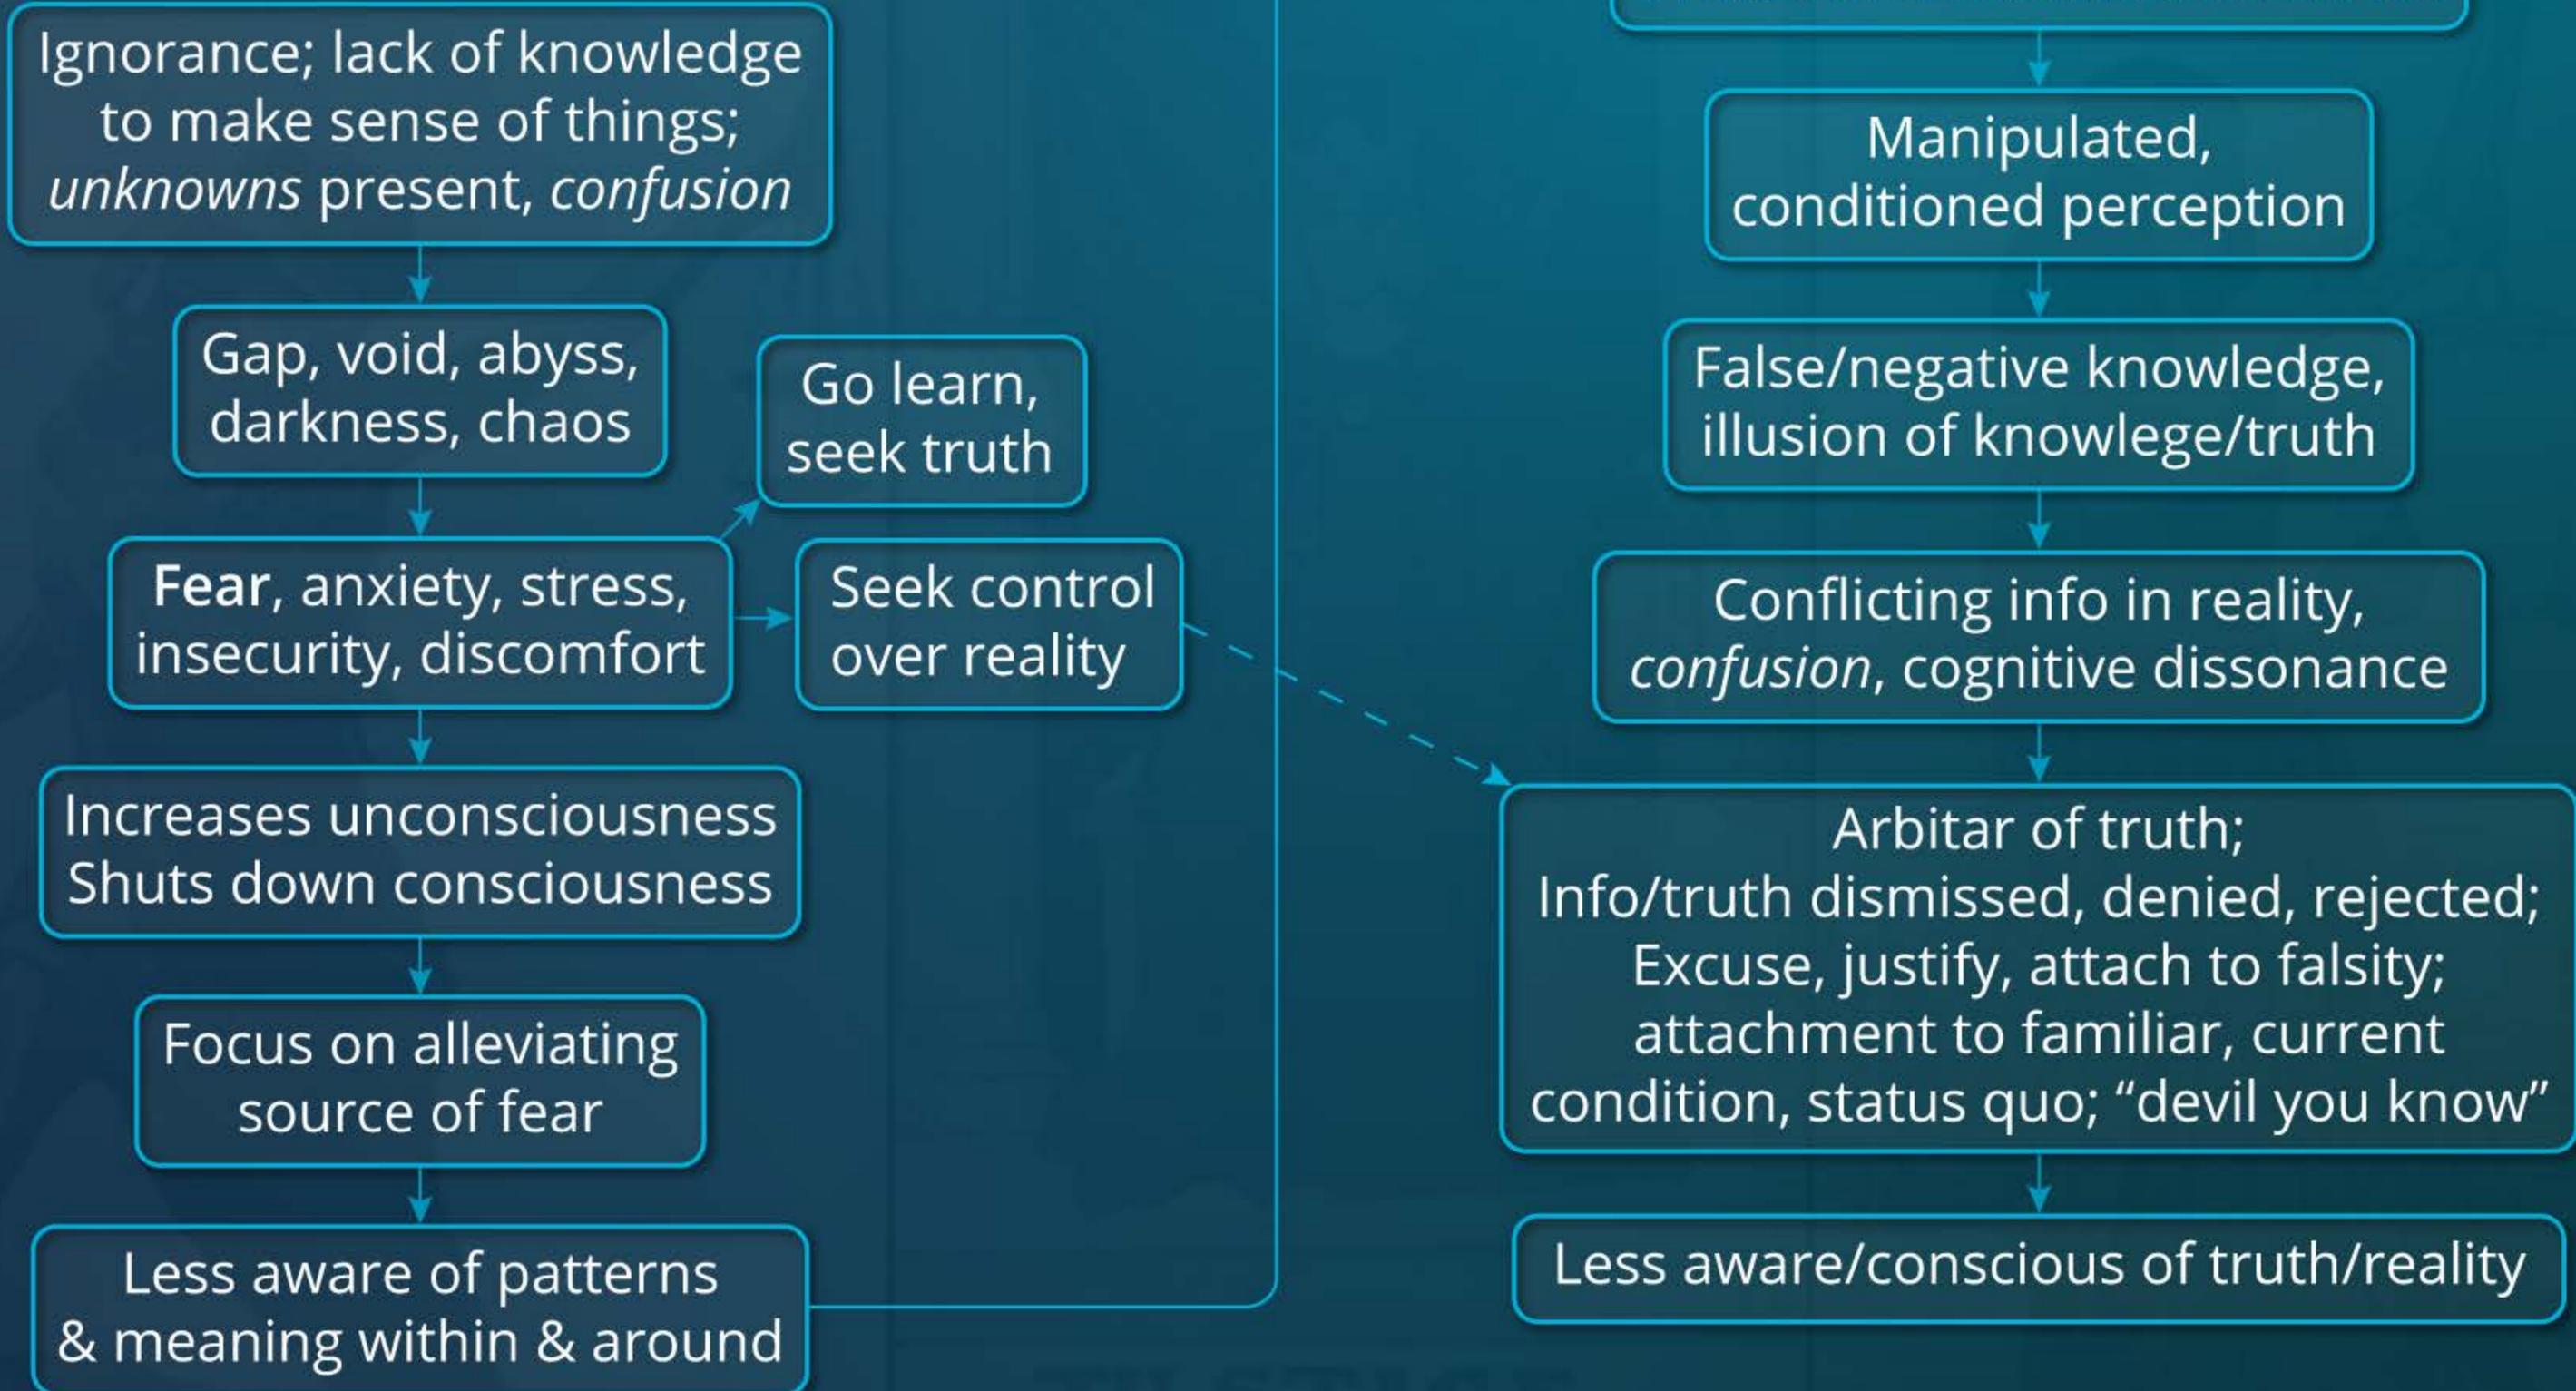

REALITY GOVERNMENT CREATES

EXPERIENCE OF SOME/MANY PEOPLE

The government and media fuel an endless cycle of fear and chaos that violates rights and freedoms. An ingenious system.

FEAR CONSCIOUSNESS

FEAR OF FREEDOM

IGNORANCE OF OBJECTIVE MORALITY, AND EITHER LIVING W/ OR W/OUT GOVERNMENT

Living with government, chaos created by govt

Fear existence w/out government gang/thugs,
fear imagined chaos

Appeal to fear, not to morality;
Give power/authority to "protector"

Evolution of consciousness
stagnated

Diseased belief in the legitimacy
of authority to control others

Believe it's moral/virtuous to obey

Living without government

Non-govt chaos/disorder grows,
(gangs, thugs, etc.)

Still better to not have government,
better for the evolution
of consciousness

Not believe anyone has the right
to initiate harm/violence;
not excuse/support the false
belief in legitimacy of authority

People recognize the right to defend
themselves against other violent people

THE TRUE ORDER OF TRUE FREEDOM

TRUE ORDER

- Live by moral truth
- Rights/Law respected
- NAP as default
- SDP as response to NAP violation
- Chaos/evil handled
- True Freedom/Order

FALSE "ORDER"

- Living in opposition to moral truth
- Violation of Rights/Morality accepted by majority in an area
- Chaos of persistent enslavement (government, monarchy, etc.)
- Ends of control, full spectrum dominance
- Evil is veiled in the illusion of good
 - ppl conditioned to accept the deception; falsity as truth
 - ppl defend the false reality; reject truth and change for better
- Allegory of the Empire in Star Wars
 - deception of bringing "order" to the galaxy
 - actually brought control, chaos, evil/immorality, fear

FROM FALSE "ORDER" TO TRUE ORDER

Change condition from False "Order" to True Order

Requirement to speak truth against false way of life

Symbol magic (words, pictures, arts)

Affecting reality through symbols,
not physical force but words, etc.

Influence and free minds

Change behavior

Not create, support or accept the
enslavement of yourself or others

Only truth can change falser selves/reality
into truer selves/reality

Let go of attachment to falsity

Align more w/ truth than former version of self
