Inspire

"to breath in"

Take in; be enlivened, excited, stimulated/motivated by:
words, ideas, sounds, shapes, colors, actions, etc...

- Pleasure; pain
- Personal gain; survival
- Domination; immorality

Lower living

- Truth
- Morality
- True Care

Higher Living

TO LIVE FOR

Inspire to Aspire

spire = spirit, breath ≈ life ≈ truth; good; right; morality; higher, truer potential/will (or the dark, opposite “spirit” in which we do things)

Aspire: “to breathe to/on”
desire strongly, strive towards

Be **inspired** by something and **care** enough to **aspire** towards actualizing what you took in. Ideally, greater potentials of aligning with **truth, morality, good, right**, etc., not the opposite or absence of. **Inspiration** and **aspiration** emphasize change; internal to external. Strive for the higher potential (**morality**), not the lower (**materialism, egotism, immorality**).

 Boundaries to Harmonize With

BEING A CHANGE AGENT THROUGH Magic or Sorcery

A **Magician** (in higher Will/Living) or **Sorcerer** (in lower will/living) can influence others in a particular way who “breathe” in the influence/way and potentially are **inspired** by it, and **aspire** to it. One can **care** to change (become higher/lower), and **care** to carry forward the “breath”/way as part of their way of being and living.

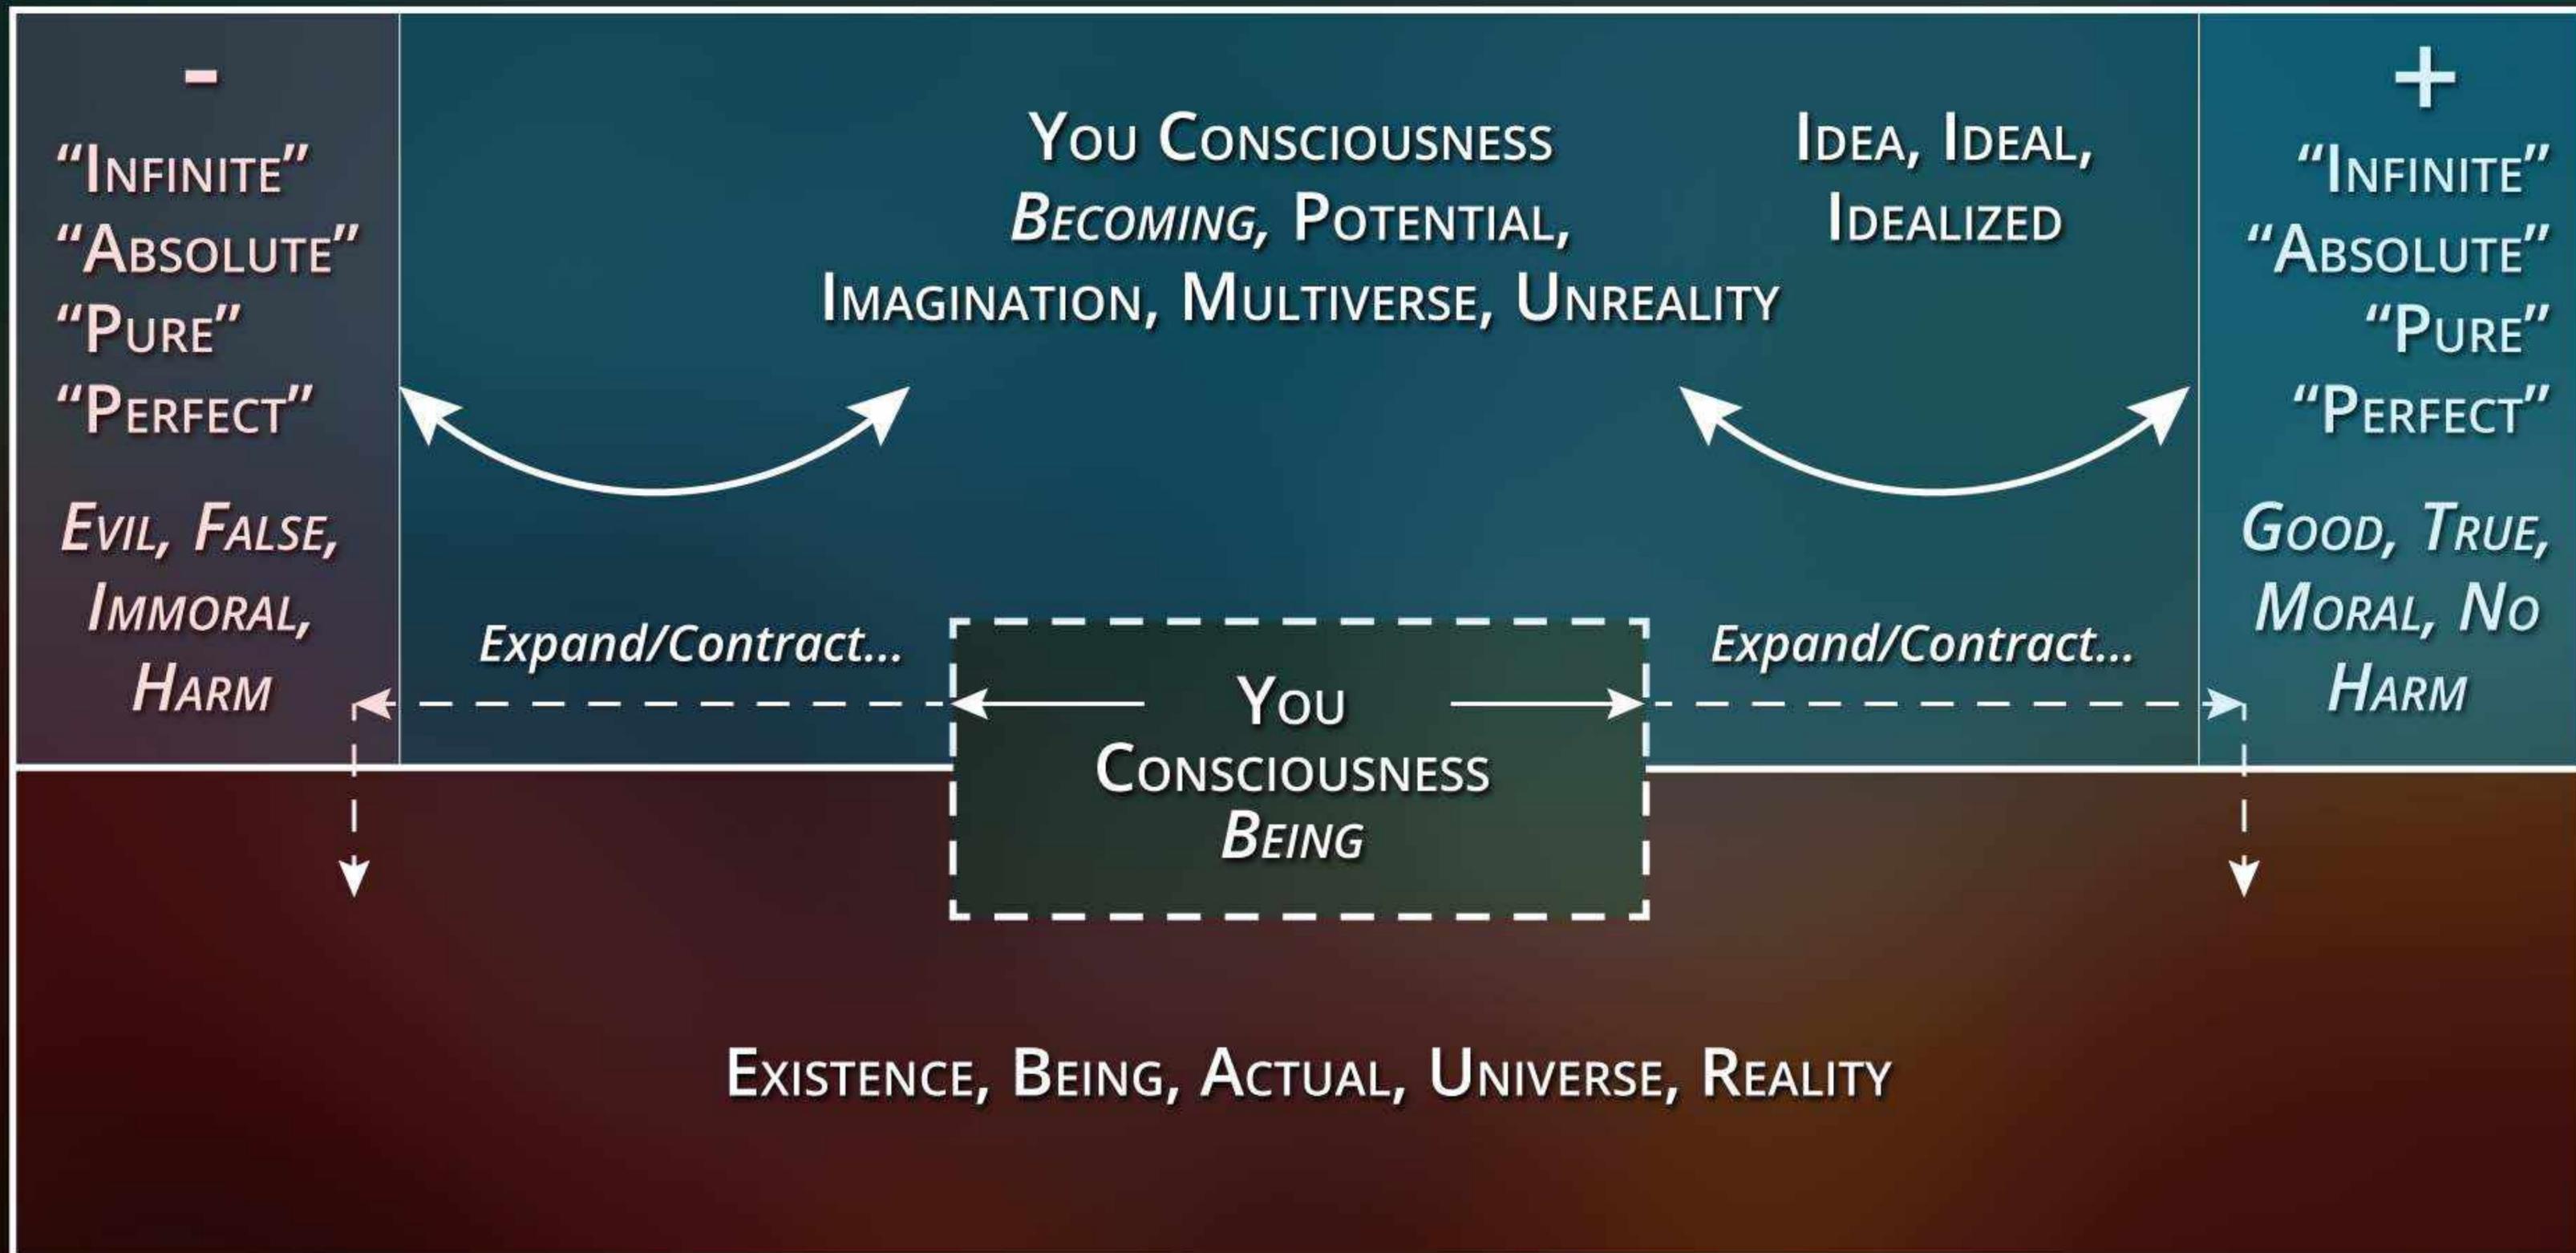

Care

Care is the generative principle or creative force. Care is the fire within that powers how we create our individual and shared experience. Care is at the **core** of how the human world is created. What we care enough about is what we end up doing. We can care about **right** or **wrong** to do either, or care about neither and ignorantly do **wrong**. We can create a **heaven** or **hell**. People don't care enough about the **evil** in the world and ignore it, so it continues. Care is the **generator** of the quality of the world we create.

CONSCIOUSNESS - MORE OF ONE POLARITY, LESS OF OTHER POLARITY

See: "Being and Becoming"

Care to Change What?

Change is a difference between one state/condition to another. **Caring** enough is required to act to **change a condition**. Do you know what the current condition is?

Slavery. You are enslaved!

You need to care that you and others are enslaved. Then care to take on the **responsibility** to change that condition of slavery; or do nothing about your enslavement, let it continue, and remain in **self-loathing**. You need to become **inspired** by awakening the sacred feminine dynamic of **True Care/Agape** to get involved. **Aspire** to end slavery, not to do nothing about it.

Your Enslavement

Is it not **slavery** for me to take 100% of the fruits of your labor under threat of greater **violence** if you don't allow it? Is taking 99%, 98% or 1% not slavery? Is it not slavery to deny you the right to perform rightful actions under threat of greater violence if you don't obey? Taxation, licensure and prohibition are making claims of ownership upon you. They demonstrate the condition of enslavement we are living in from our deluded, collective acceptance and support of the legitimacy of **authority** to **control** and be **rulers** of others.

See: "Natural Law — The Science of Morality, Part 2: Slavery"

Wake Up Call

The world doesn't function the way most people think it does. There is a concerted effort to increase the **control** over your life, restricting your **freedom**, denying your **Natural Rights**. This is about increasing **enslavement** over everyone. It's been going on for centuries. Those doing this are so arrogant and view themselves as unstoppable, that they talk about what they are doing in books and gatherings. But most people are not paying attention. You need to know there is a problem before you will **care** about a solution. Head the call, wake up from apathy, care, and start your journey to learn about and end **slavery**. The call and awakening is ultimately to become a teacher.

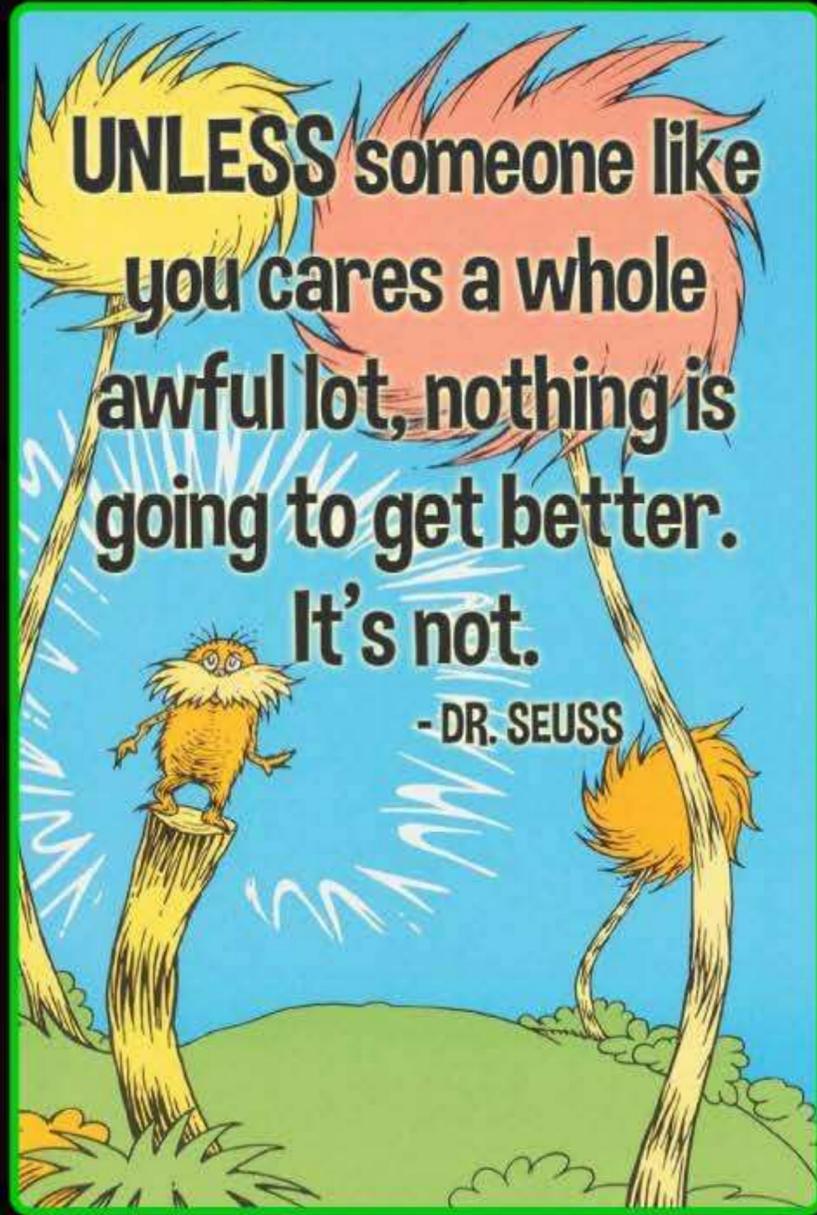

Awareness to Care

Most people are uninformed (unaware) and spoon fed what reality is from the media. Can you **care** about **injustice**, like ongoing plans to subjugate and enslave you and your children, if you don't even know because you can't see it? No. Knowledge of the current condition of humanity needs to be acquired. Caring to know comes before caring to do something about what you know. Do you truly want/care to know that you're **enslaved**, and give a shit to do something about it?

Caring About the Problem

If you don't know about the problem, then you won't care about the problem or the solution. "*But there are other problems than slavery!*" some may retort. Yes, but the most important are the result of **immoral** behavior.

THE PROBLEMS

- slavery/control (harm)
- government (control)
- think tanks (control)
- social engineering (control)
- pollution, toxins (harm)
- ... on and on

THE SOLUTION

- learn objective morality
- do alchemical/shadow work to align with objective morality
- teach objective morality (Natural Law)

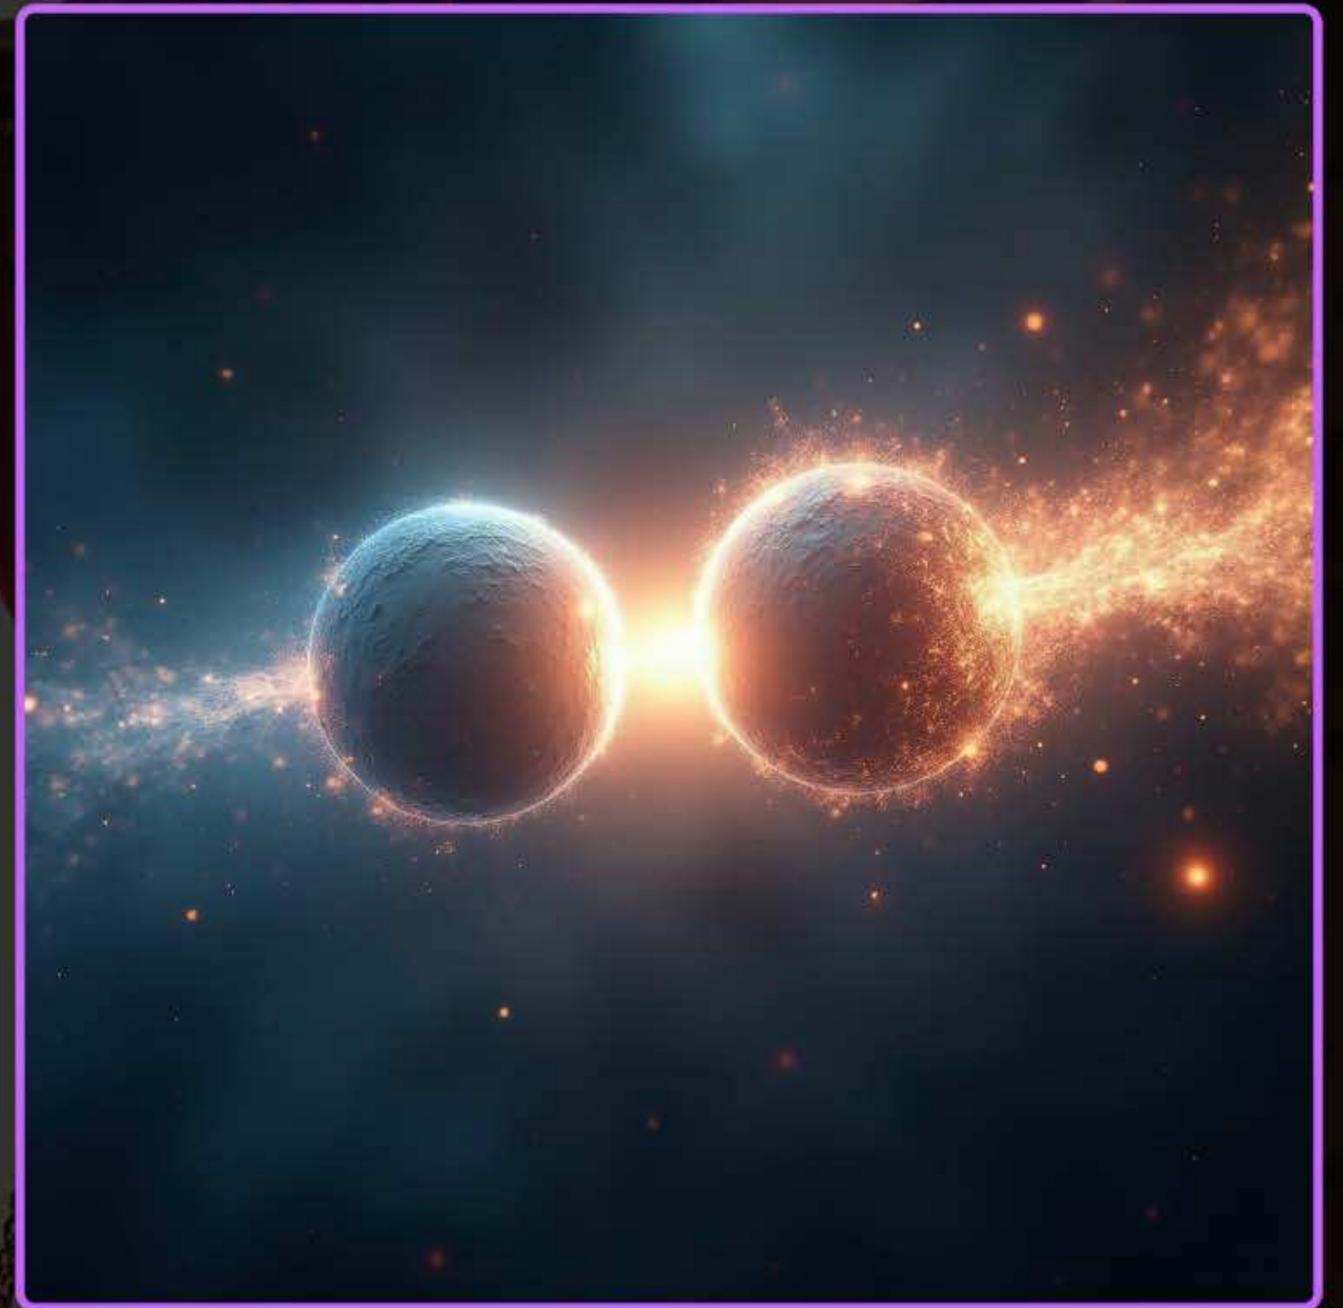

Time and Attention

What are you trying to create? What do you **care** enough about to put your **time** into and **attention** on? What you **spend** time on and **pay** attention to influences how you behave, what you are, and what you become. Time and attention are the two metaphysical (spiritual) **currencies**, in contrast to the physical currency of digital, paper, plastic or metal money we use to spend and pay for things. We get a return on our **investment** based on what we spend and pay with.

Law of Attraction

We will receive different results in our lives depending on what we spend **time** and pay **attention** to. If we pay attention to or spend time doing certain things, then we will get certain results in our lives. The investment of time and attention will influence our behavior. What we put into ourselves leads to what we put out as actions *into* reality and what we get *from* reality. Thus, we **attract** what we put out. Ignore **immorality**, and get more of it. Spend time and attention on trivial things, and let the **dominators enslave** you.

Light/True Care (Agape)

- Sacred Feminine; goddess; **positive care**; **compassion** of our emotional **moral** compass for other sentient beings' suffering; not initiating harm; birthing true conscience
- Higher **Moral** Living; care to seek, accept, use and teach truth for **good**; gives birth to the Sacred Masculine child of Right-Action.
Caring for **Moral Truth** to climb off the checkerboard floor (initiation) of walking in the path of **good** and **evil ignorantly**. Facing the shadow to slay the **dragons/demons** within for **True Conscience** to be born.

Dark/False Care

- Unholy feminine; dark goddess; **negative care**; burn away/kill **True Care** of our emotional **moral** compass for other sentient beings' suffering; foster/do harm
- Lower **immoral** living; care to seek, use and invert truth to manipulate; gives birth to the **predator** of immoral action.
 - **Caring** for **dominance/control** and spreading **falsity** to get others to live on the checkerboard floor of walking in the path of **evil** (knowingly or **ignorantly**). Hiding in the shadows to birth the **demons** within.

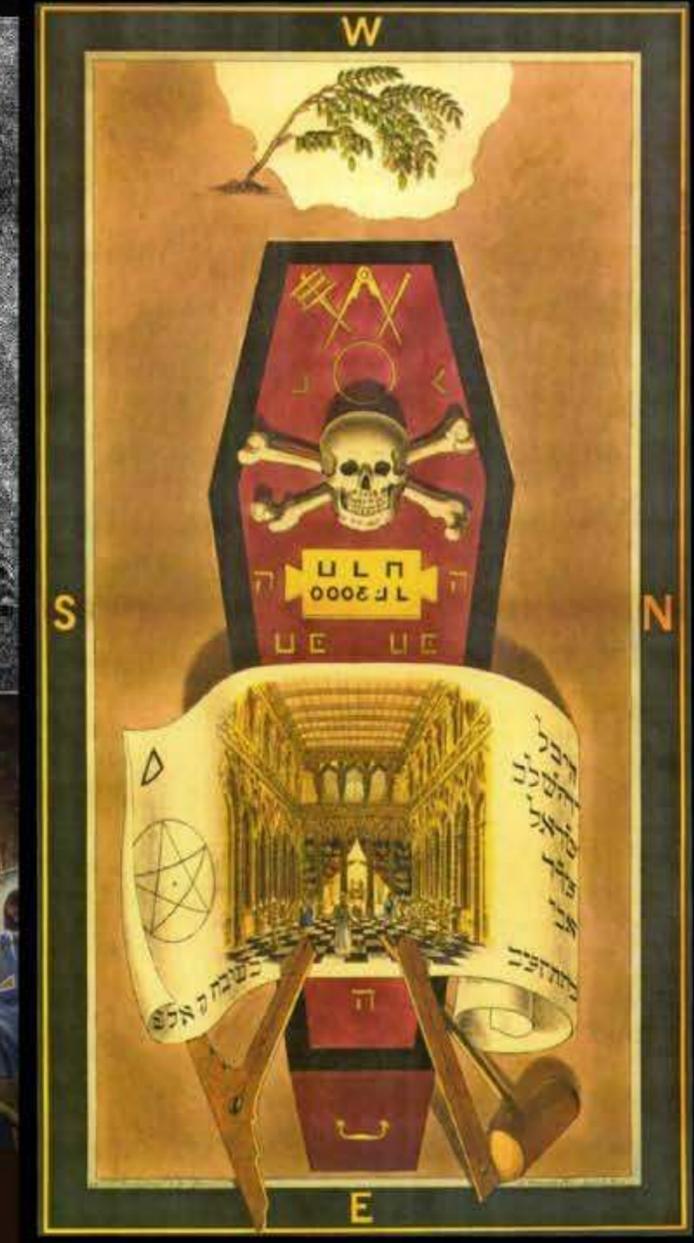

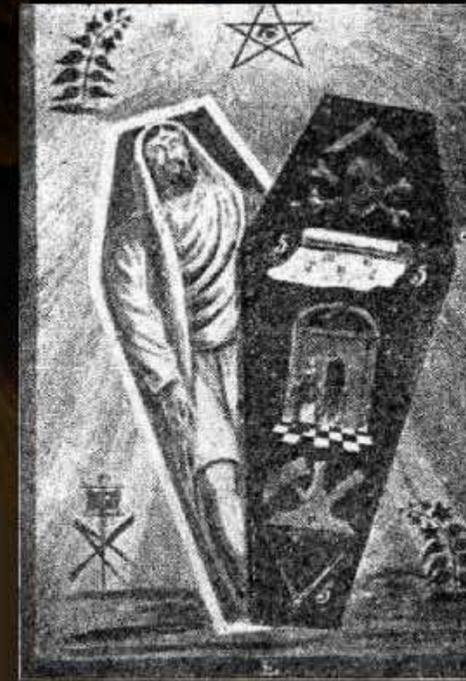

Dead Care (Apathy)

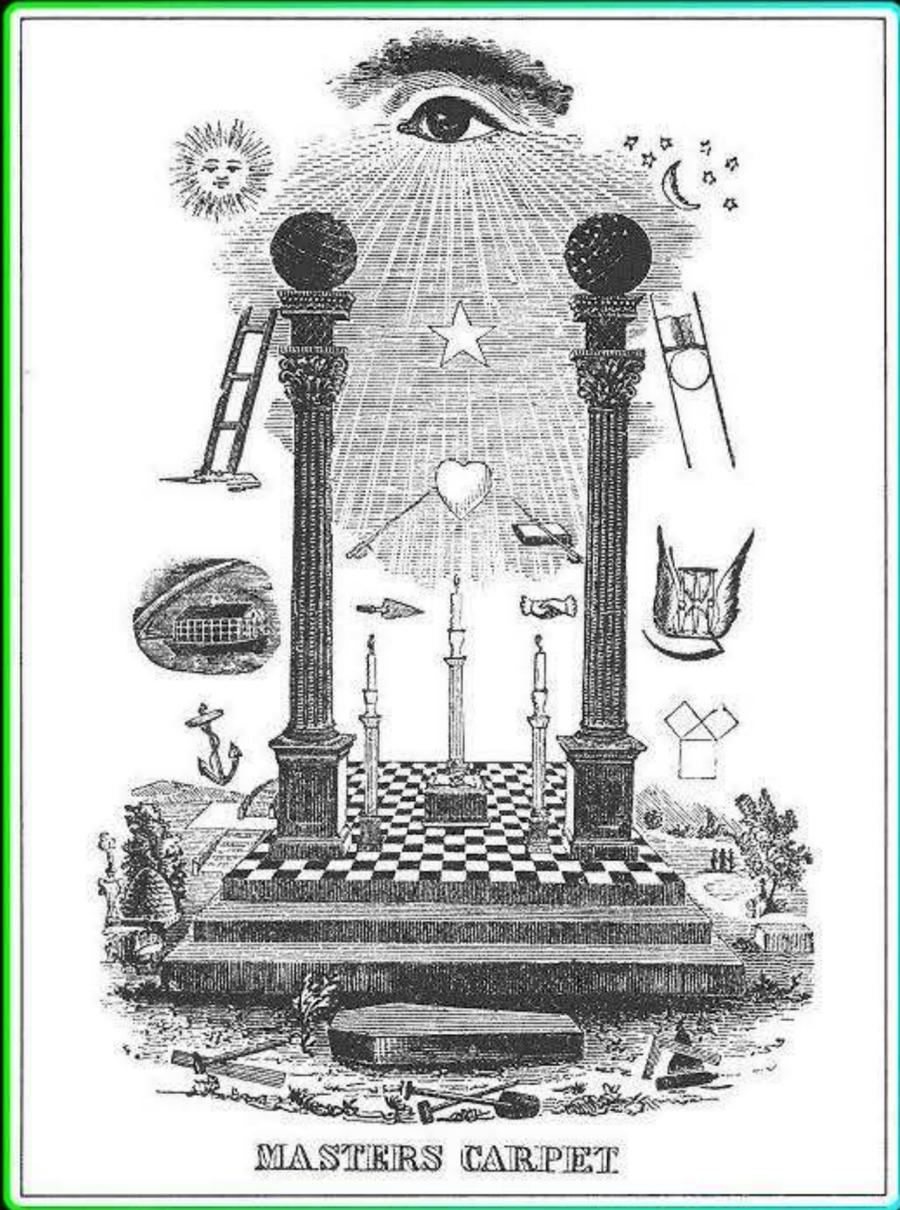

Apathy can be *no care*, as in “*I don’t care*”, or a *lack of care to act*. Either way, things don’t change when you don’t care enough to change them. When you don’t know or care about how the world is, and let the **dark carers** drive it, your **True Care** is dead (uninitiated). While they **drive** the **evil control** system, you’re the gears, the energy that fuels and sustains it. **Egotism** holds you back. You can resurrect True Care to do the **Great Work** to end evil. You might know about the true condition of the world, but if you want a moral world yet aren’t activated to create it, then you still have deadened care. **Moral relativism** is present when **True Conscience**, birthed through True Care, is absent.

The "Dead"

Apathy for Truth is symbolic of being **dead**, **asleep** or **unawakened**, which is being **unconscious** and **inactive** in life. One is dead in the coffin, grave or tomb, unconscious to **Moral Truth** and it's importance in life; not being consciously aware of the importance of caring for truth and acting in alignment with truth. Not to **care** about what is happening in the world, nor having the **intelligence**, **courage** and **will** to change it, equates to deadened thoughts, emotions and actions. Apathy for truth creates **ignorance**, **cowardice** and **laziness**. Apathy kills care, ignorance kills intelligence, cowardice kills courage, and laziness kills willpower, leading to an absence of action; being inactive and "dead". The **dark carers** are active in creating **evil**.

Resurrect True Care

The “dead” symbolism is used to express the unrealized and unactualized potential to **care** for, **seek, embrace, embody** and live aligned to **Moral Truth** (the **Way/Path**) as a truer, realer, higher version of ourselves. We become **initiated, awake, aware** and **begin** to do the work of trying to end **evil**. We are **resurrected, risen, rebirthed, reborn** and **raised** from a deadened lower state of consciousness. We rise to a **higher, truer** and **realer** consciousness/life, and are now “alive”, born into a “new life”, a “New World”, an “afterlife” that is given to us by the light/life of Moral Truth in our lives.

Light/True Care

Apathy

Unbegun
Dead
Uninitiated

Dark/False Care

The **dark carers** (**sorcerers, social engineers, satanists**) negate **True Care**, which puts them in the lowest position. They consciously work to build a **hell** and rule as **masters**, and still think they're better than the "dead" or unbegun. The "dead" have **dead True Care** and go along with the dark agenda. The **light carers** (**magicians, wizards**) affirm **True Care** and work to stop **evil/slavery/immorality**. To end the dark reign of evil, more people need to rise from the darkness into the light of **Moral Truth**.

Levels of Satanism

(The Old Religion)

The Dark Path Towards Creating Evil

1. EGOTISM / SELFISHNESS

Service to self as the highest goal. “Me, me, me” thinking. Apathy for larger suffering.

2. MORAL RELATIVISM

Right and wrong are what humans decide they are: changing, contradictory.

3. SOCIAL DARWINISM

The most powerful, rich, dominant, etc. should be the rulers/masters of humanity.

4. EUGENICS / DYSGENICS

The masters decide who lives or dies.

Satanism of Egotism

Most people are their own **enemies** (**opposers**) regarding **slavery**, due to the mindset of egotism as Satanism. They only **care** if something is benefiting or harming them. If they benefit, then they don't really care about the cost to others. That's the game of politics: vote to get what you want by **stealing** from others (taxes, foreign resources, etc.). They don't see their own enslavement by their own hands. We are enslaved by **authority**, yet most people don't know, or even care enough to act to end it.

Satanism of Egotism

Most people just want to live their lives, not be bothered with the **responsibility** to end their own **enslavement**, or even hear that they're enslaved. They're conditioned to accept the **inversion of truth**, their slavery and not **care** about **evil**, let alone ending evil. They're formed into de facto Satanists, sacrificing **True Care** to focus on their own selfish lives. The personal, increased enslavement of COVID ignited the spark of True Care in some, but the flame soon died out in most when the measures were lifted.

Time for Natural Law

Time is one of the most important aspects of our lives. Rich or poor, we have it to spend all of our lives. Spend it on trivial things and get trivial results in life; on getting money, power, running from the self/shadow; or face the self/shadow in the pursuit of **higher principles**. When you put your time and attention on **moral truth**, then moral truth influences your behavior, becomes part of who you are and radiates from the expression of your actions. It's time to pay **attention** and learn what **Natural Law** is, understand it, then teach it.

Rights

A right is an action that doesn't inherently initiate harm to another sentient being. **Initiating harm** is theft of rightful property. Property is based in ownership. The default ownership of a sentient being is their body and their will: self-ownership. Other rightful property is acquired by mixing labor with natural resources (original appropriation) or voluntary exchanges. There are 7 primary property violations (wrongs), which are **thefts** of types of property.

7 PROPERTY VIOLATIONS/THEFTS

1. Murder
2. Rape
3. Assault
4. Coercion/Duress
5. Standard Theft
6. Trespass
7. Willful Deception (Fraud)

THEFT OF

7 PROPERTY RIGHTS

- Life
- Sexual Association
- Bodily Integrity
- Free Will Choice (Consent, Autonomy)
- Standard Property
- Security of Your Living Domain
- Ability to Make Informed Decisions

VIOLENCE

Slavery

Slavery is a false claim of ownership (theft) on another's rightful property. A society of slavery is when there is an accepted, widespread and persistent or repeating claim of ownership on others' property.

Immoral behavior (**theft**) is a false claim of ownership (FCO), and de facto **enslavement**. Taking property from someone who initiated no harm (non-violent) is taking their **freedom**, which is creating slavery. Making non-violent people do (or not do) things by threat of **violence** is coercion (FCO). A society that views some people (authorities) as having the "moral right" to issue commands that others have a "moral" obligation to obey under penalty of violence (FCO), is a society of slavery where some are **masters** who have authority over others who are **slaves**.

Slavery has to be created, it's not the default condition of a being. **True Freedom** is the default and gets degraded by immoral behavior.

True Freedom

True Freedom is the absence of persistent or repeating false claims of ownership (FCO, theft) or slavery in the aggregate; with the respect of everyone's **Rights** and their defense when not respected.

Preserving and restoring freedom comes from free will. Free will has consent. Violating someone's consent for what they allow to be done with their rightful property is taking that property and freedom away from them (**theft**), and creating a temporary or persistent condition of the opposite of freedom: **slavery**.

Everyone has the right to unimpeded use of their rightful property and to live by voluntary/consensual interactions with others. Those who **initiate harm** (theft) abandon their right to consent to harm and can have negative consequences applied.

Morality

Morality consists of objectively defined rules of **right** and **wrong** behavior. *Basic* moral behaviors (M1) are a right because they don't **initiate harm (theft)**. You don't have a right to do *primary* immoral behaviors (I1) because they initiate harm, which is a false claim of ownership (FCO), an act of **enslavement**, creating **evil**.

If you *want* others to initiate harm, then you're also primarily immoral. If you **tolerate** the persistent evil (persistent enslavement) by doing nothing to try to reverse it, then you're letting evil be, which isn't creating evil (primary immorality), but is a *secondary* immorality (I2). The work to reverse conditions of enslavement and bring back **True Freedom** is the **Great Work**, and is accomplished through **moral education**. This is *higher* morality (M2).

Respect the rights of others (NAP), otherwise you engage in wrongful harm (theft), and others have the right to defend themselves against your violations of their rights, which will result in rightful harm to you (SDP). Physical defense against evil is also a *higher* morality (M2).

Law of Freedom

AS MORALITY INCREASES/DECLINES, FREEDOM INCREASES/DECLINES

$$\sum F \propto \sum_{i=0}^{\infty} M_i$$

Σ = Sum, total or aggregate

\propto = Proportional: a corresponding, constant ratio between quantities

F = Freedom

M = Morality of behavior

i = Individual or instance

$$\sum F \propto M_1 + M_2 + M_3 \dots$$

The LoF describes the dynamic that governs human freedom: **morality**.

The total amount of freedom in an area is proportional to the total amount of moral behavior in that area. The more moral a population is, the more **freedom** emerges as the condition in that area. The more **immoral** a population is, the more **slavery** emerges as the condition in that area.

$$\sum S \propto I_1 + I_2 + I_3 \dots$$

Slavery and Freedom

Slavery is the opposite of **freedom**. Creating a false claim of ownership (FCO), be it temporary or persistent, is creating slavery. An instance of a FCO is an instance of enslavement. A repeated or persistent FCO creates persistent slavery as a permanent condition of life. Behavior makes the FCO, no one has to verbally state *"I own you"* for a FCO to be made.

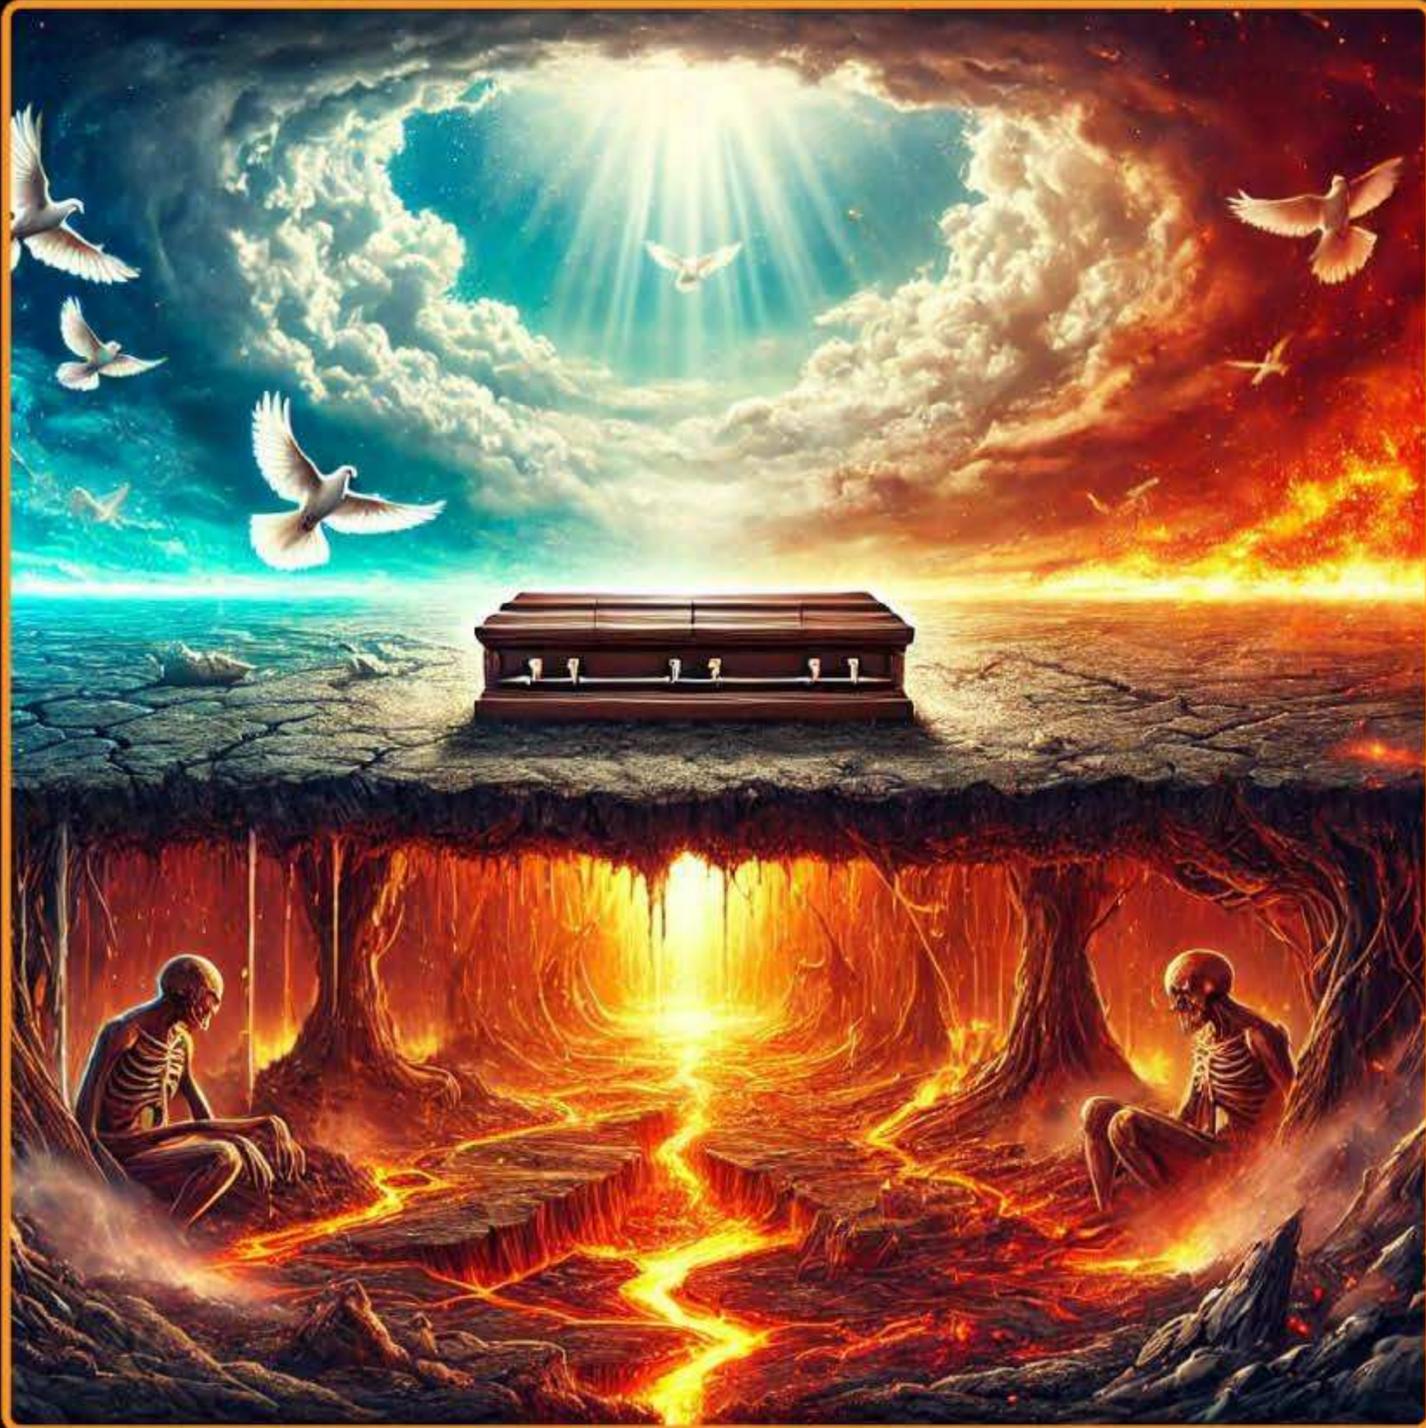

The state of **True Freedom** (TF) is present when there is no FCO. The state of TF is absent when there is any FCO. If the FCO is persistent, TF doesn't return. Not having TF, while still having some freedoms, is a degradation of TF and is slavery, be it an instance or persisted.

Natural Law

There are many natural laws (**laws** of **nature**) which describe and govern the relationship of one particular state or condition necessarily resulting in another. They are immutable, inviolable and invariable in how they function, and are inherent aspects of existence which means they aren't created by humans. The term **Natural Law** deals with laws of nature regarding (human) behavior, like the **Law** of **Freedom** (LoF). This also consists of **morality** or Moral Law as rules of conduct, as opposed to the legal "laws" humans create. Moral Law is not a law of nature, as you can choose to violate morality and be immoral, with either choice operating within the LoF to produce results in consequence.

Rise Humanity, Rise

Good and evil is created in the world. The dark workers are progressively reshaping the world into their image of ruling a hell. Most people have inactive True Care and go along with their agenda. They build the world that enslaves them and keeps their near-infinite potential (to build a heaven) locked in a coffin. They must rise out of apathy/complacency about the current condition of slavery/evil, awaken the sleeper (sleeping potential) within, and join the forces of light to build a moral world through moral education.

Quantum Change

Changing the overall condition of a group is like moving a huge object. One person can't do it alone, neither can a few. It takes a large *quantity, a majority*, to move in a certain direction for the way of the group to follow. If the majority moves in the direction of **slavery**, that's what we get. To get a majority to instead move in the direction of **True Freedom**, they need to be convinced to stop going in the direction of slavery, and go another way, to walk another path. That's what the arduous **Great Work** is: getting people to **care** that they support slavery, and care to put an end to it instead.

Enlarging Compassion

Become a bigger circle. Widen your circle of identification and **compassion** for the suffering of others. This means having **Agape**, the wider form of **Love**; the **True Care** of moral concern for others. This is not just caring for yourself and those around you while you let evil be. Agape-Love is the **Law** as a base for developing **Higher Will** to propel action. The Law of **Freedom** functions with all, with True Freedom for all who align with **Moral** Law. Everyone is going to the same future place/condition with you if you want to be truly free.

Moral Education

Humans are programmable beings, not fixed beings. The resulting quality of the being is formed by the information taken in throughout life. High quality information (like **moral truth**) will form a **high quality being**, whereas low quality information will form a low quality being. **Moral embodiment** is the main factor for determining the quality of life of a society, as its failure creates **immorality** which is detrimental to life. Learning **objective morality** is the only way to become a moral being who is capable of restoring and maintaining **True Freedom**.

Motivating Action

We're letting our potential go to waste. Of all the near infinite things we can do, the potential greatness, this is what we're choosing out of **apathy, ignorance, fear, cowardice** and **laziness**: a system of **control/enslavement**. Knowing that the condition is slavery, you should be *motivated* to do something about it; motivated by the *incentive* to get what you want: **True Freedom**.

Teaching **moral truth** needs to be done. Learn to **truly care** and get off your ass. Stop being black-pilled, hopeless or fearful as an excuse to do nothing. A 2nd birth/resurrection to care more doesn't mean you care enough. You can still have apathy (being partly “dead”) inside which is keeping you inactive.

Carry the Light

Carry the lantern/light to seek, find and learn **Natural Law**, and pass the light on to others so that they carry it, find the path of **morality** and repeat the process for us to co-create **True Freedom**. This **Great Work** of influencing others to align with moral truth, is to be a broken record of **repeating moral truth** and why/how to align to it; to **enlarge the voice of truth** for others to potentially come into contact with it. If you don't do this work that will get us out of the insanity of supporting our own **enslavement**, then you don't **care** enough to have activated **True Care**.

Bear the Responsibility

Are you going to leave the condition where it's at, make it worse, or change it to try to restore **True Freedom**? Be part of building something you won't get to benefit from; plant a tree that you won't ever sit under the shade of. That's **caring** enough.

Be **inspired**, breathe in the **moral truth**, evolve consciousness and **aspire** to create a moral world that should be, not the **immoral** one we have. Breathe the moral truth back out. Bring out that which is within you. Bear the cross, carry the weight, take on the **burden of responsibility**.

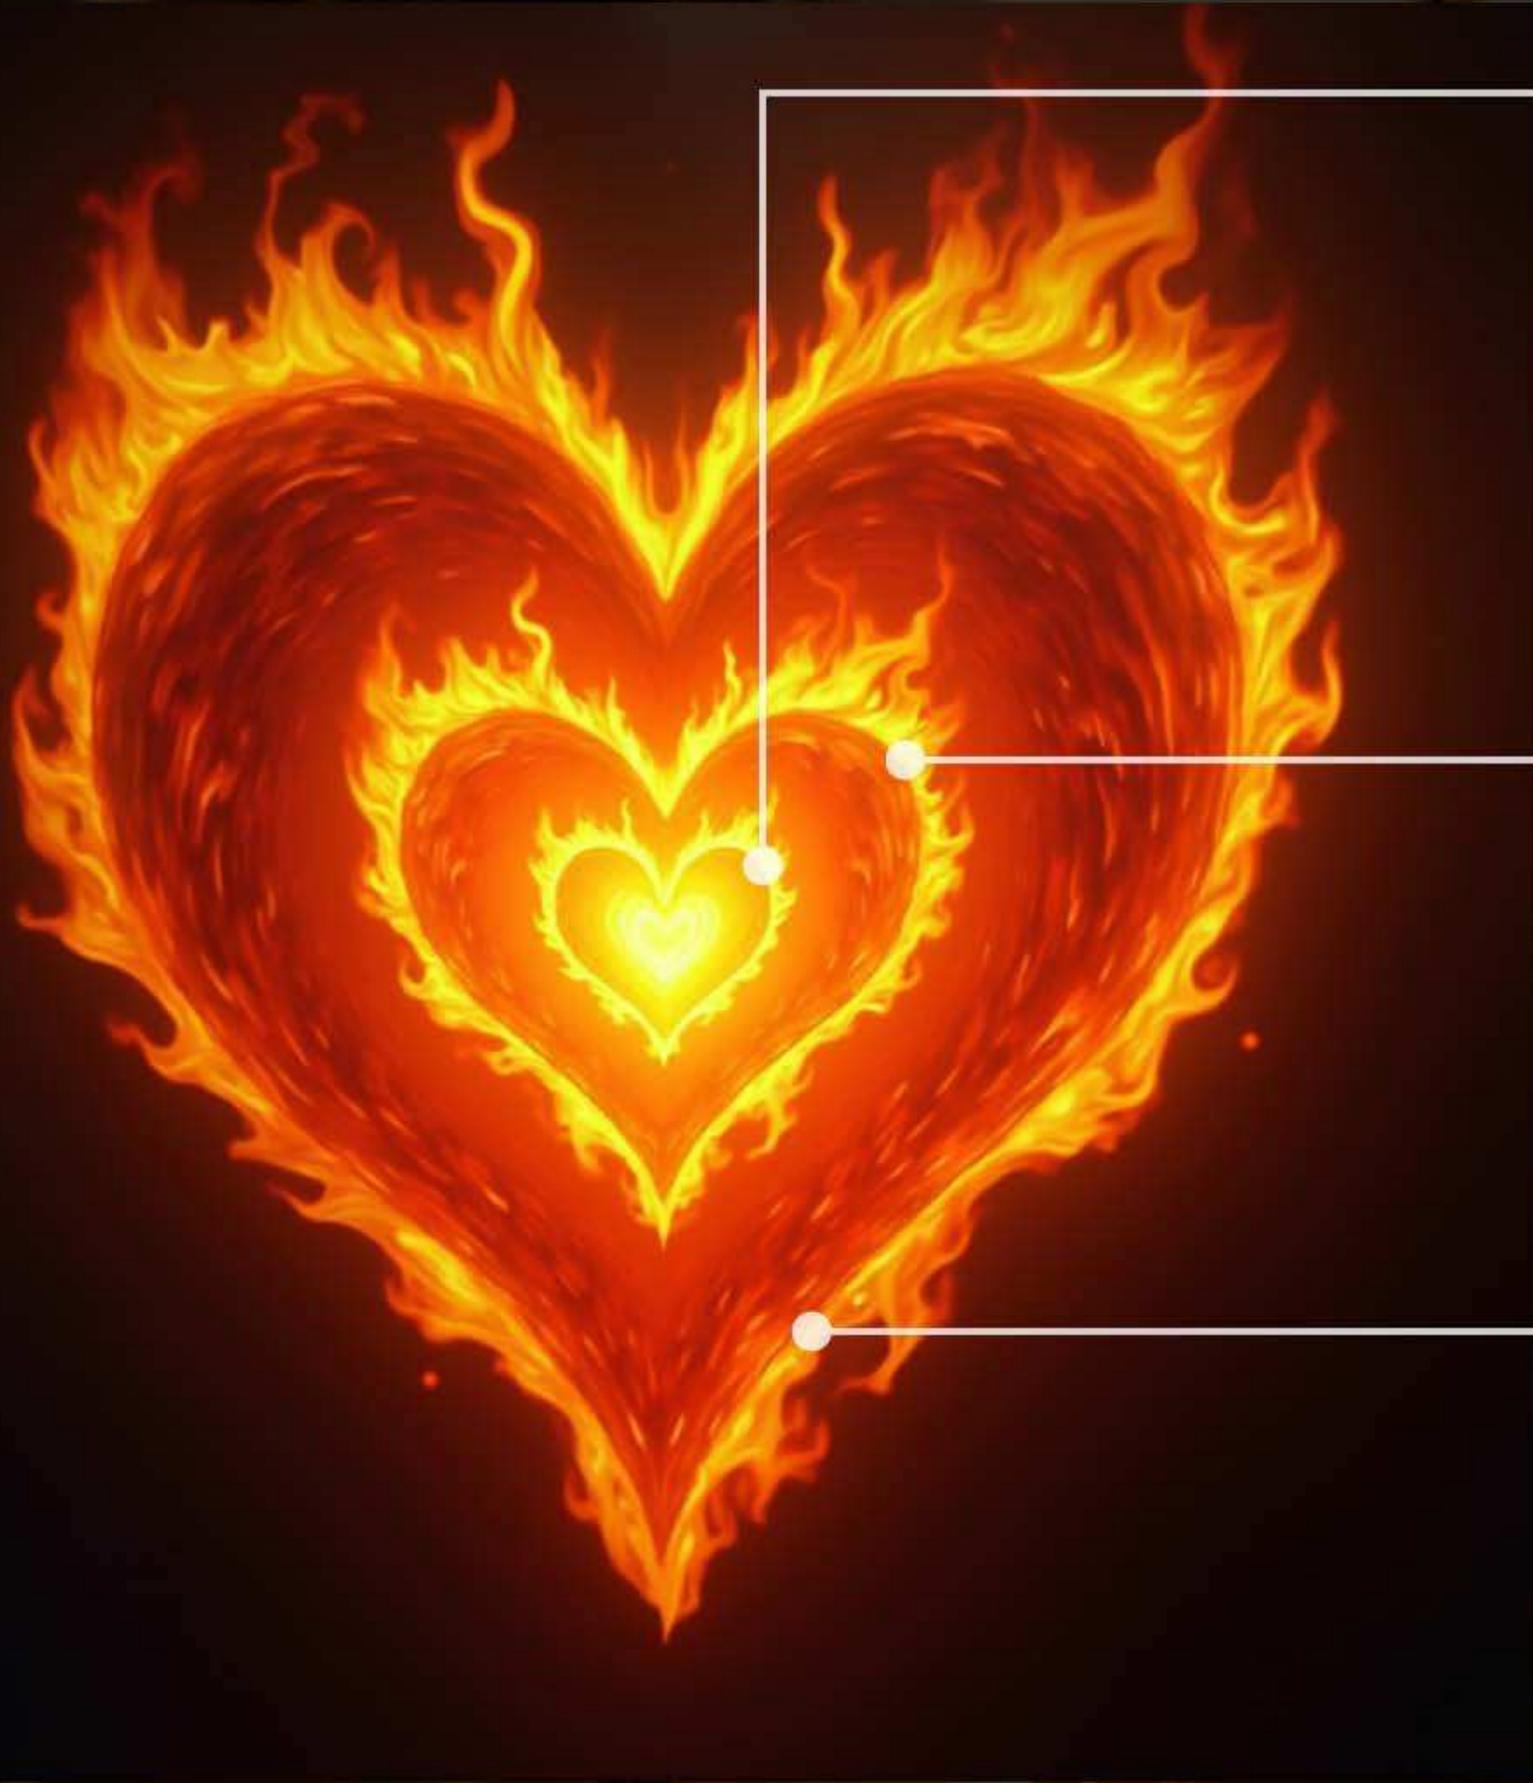

Figure out the Problem

Care enough to go seek and learn that the **immorality** (evil) of societies is due to moral **ignorance**.

Learn the Solution

Care enough to find out the solution is education of **morality** (Natural Law).

Apply the Solution

Care enough to alleviate the moral ignorance of the world by teaching **Natural Law**.

Why to Truly Care

Develop **True Care** to change the world for the better. **Caring** enough to act to make the world moral is **self-love** and **self-respect**, otherwise one is still in **self-loathing**. Stop thinking it's not worth it; that you're not worth fighting for your own **freedom**; that it's too hard. Abandon self-loathing. **Aspire** to become better, to move towards being part of the solution. Otherwise, if only few employ that **will** and effort, nothing will change to that potential. To just want a better condition/quality of life for yourself while still being **enslaved**, means you don't even love yourself enough to take on the **responsibility** to create a **moral** world.

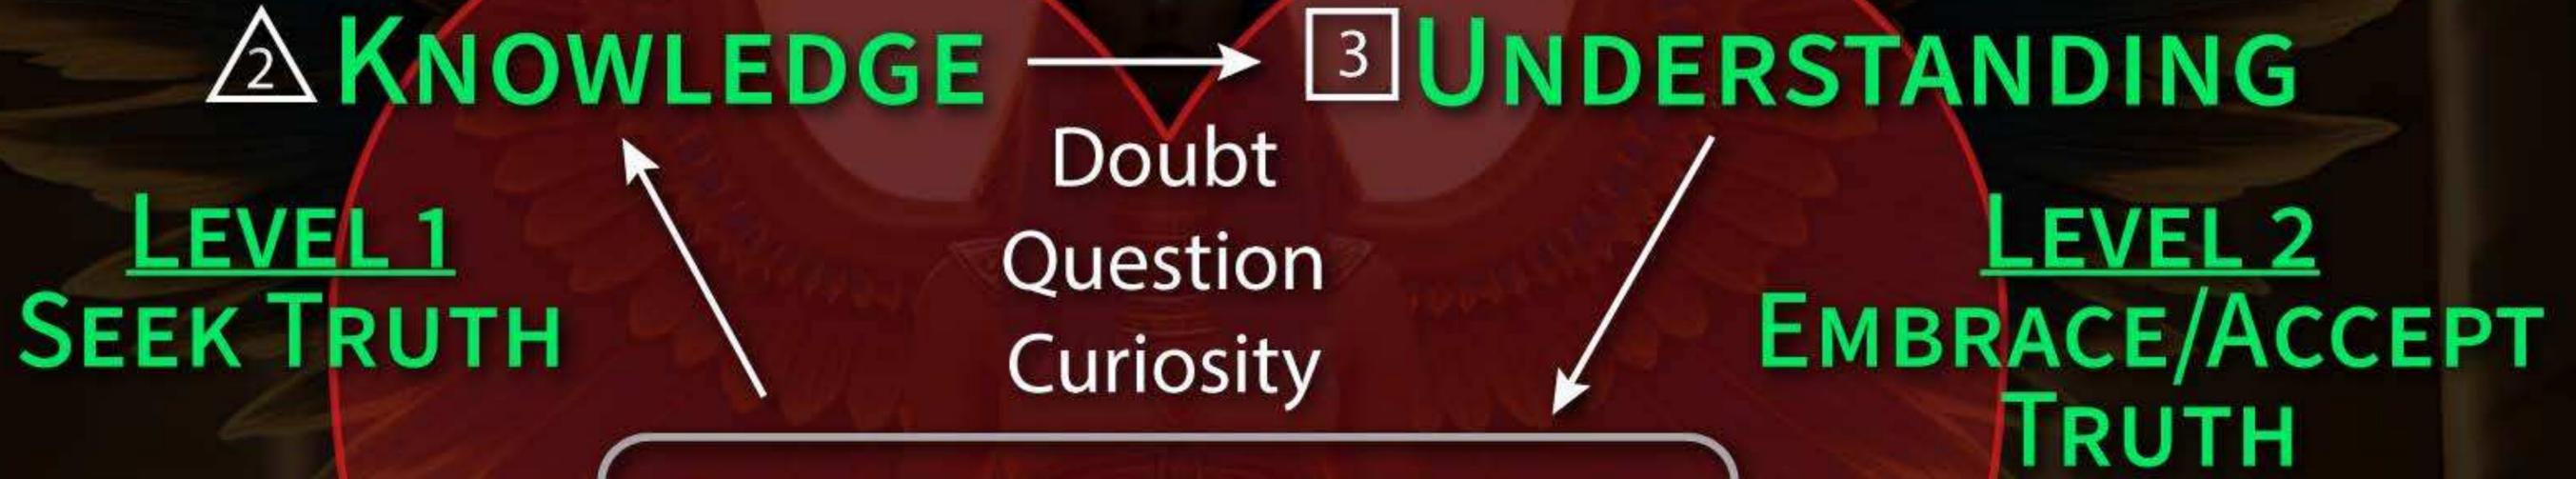

Truly Care About You

Even if you feel alone, standing at the edge of a cliff, aspire to **higher morality**. Influence others to be more moral. Develop the **courage** to stand for what's **right, good** and **true**. Courage comes from 'cor' (heart), the core, center or middle. **Care** is also at the core of our being, a growing or shrinking light or dark flame to propel our behavior. **Cowardice** and inaction is from not caring enough. **Truly care** about being **enslaved**. Have the strength to get involved in ending our enslavement; help bring humanity back to **True Freedom**.

THE GREAT WORK

TRUTH TYPE 1 - CONDITION ACTUAL TRUTH - WHAT IS
